

# List Of Tables

Table No.		Page No.
2.1	Involvement of Oxygen Radicals in Various Pathological conditions	13
2.2	Reactive oxygen species and scavenging systems	27
2.3	Following Enzymes are involved in Glutathione Metabolism	42
2.4	Details of Enzymes involved in Glutathione Metabolism	43
3.1	Dilutions of standard	69
3.2	Equivalent surface area dosage conversion factors	85
3.3	Representative surface area to weight ratios ( $K/m^2$ ) for various values.	85
3.4	Peak List Report of GCMS of Country Liquor	91
3.5	Detailed Peak List (Peaks 1-8) Report of GCMS of Country Liquor	92
3.6	Detailed Peak List (Peaks 9-10) Report of GCMS of Country Liquor	93
4.1	Effect of Acetaldehyde supplementation on Vitamins in blood	94
4.2	Effect of Acetaldehyde supplementation on Antioxidants Enzymes in blood	107
4.3	Effect of Acetaldehyde supplementation on Elements in blood	107
4.4	Effect of Acetaldehyde supplementation on Lipid peroxidation or MDA in blood	108
4.5	Effect of Acetaldehyde supplementation on Liver functions	109
4.6	Effect of Ethyl Acetate supplementation on Vitamins in blood	119
4.7	Effect of Ethyl Acetate supplementation on Antioxidants Enzymes in blood	119
4.8	Effect of Ethyl Acetate supplementation on Elements in blood	120
4.9	Effect of Ethyl Acetate supplementation on Lipid peroxidation or MDA in blood	120
4.10	Effect of Ethyl Acetate supplementation on Liver functions	121
4.11	Effect of supplementation of Country Liquor and Multivitamins together in blood on Vitamins	129
4.12	Effect of supplementation of Country Liquor and Multivitamins together in blood on Antioxidants Enzymes	129

4.13	Effect of supplementation of Country Liquor and Multivitamins together on Elements in blood	132
4.14	Effect of supplementation of Country Liquor and Multivitamins together on Lipid Peroxidation or MDA in blood	132
4.15	Effect of supplementation of Country Liquor and Multivitamins together on Liver functions	133
4.16	Effect of Country Liquor supplementation on Vitamins in blood	141
4.17	Effect of Country Liquor supplementation on Antioxidants Enzymes in blood	141
4.18	Effect of Country Liquor supplementation on Elements in blood	144
4.19	Effect of Country Liquor supplementation on Lipid Peroxidation or MDA in blood	144
4.20	Effect of Country Liquor supplementation on Liver functions	145
4.21	Effect of Acetaldehyde supplementation on Vitamins in liver homogenates	151
4.22	Effect of Acetaldehyde supplementation on Antioxidants Enzymes in liver homogenate	151
4.23	Effect of Acetaldehyde supplementation on Lipid Peroxidation or MDA in liver homogenate	160
4.24	Effect of Ethyl Acetate supplementation on Vitamins in liver homogenates	170
4.25	Effect of Ethyl Acetate supplementation on Antioxidants Enzymes in liver homogenate	170
4.26	Effect of Ethyl Acetate supplementation on Lipid Peroxidation or MDA in liver homogenates	171
4.27	Effect of supplementation of Country Liquor and Multivitamins together on Vitamins in liver homogenates	176
4.28	Effect of supplementation of Country Liquor and Multivitamins together on Antioxidants Enzymes in liver homogenate	181
4.29	Effect of supplementation of Country Liquor and Multivitamins together on Lipid Peroxidation Or MDA in liver homogenates	181
4.30	Effect of Country Liquor supplementation on Vitamins in liver homogenates	191
4.31	Effect of Country Liquor supplementation on Enzymes in liver homogenate	192
4.32	Effect of Country Liquor supplementation on Lipid Peroxidation or MDA in liver homogenates	192
