ACKNOWLEDGEMENTS

Words are inadequate to express my deep sense of gratitude for my learned and reverend guide Prof L.D. Joshi, Head, Department of Biochemistry, Ganesh Shanker Vidyarthi Medical College, Kanpur for his able guidance, constructive counsel, constant inspiration throughout the study which paved way for successful completion of this endeavor.

I wish to express my profound gratitude to Dr R.C. Srimal, former Head, Division of Pharmacology, Central Drug Research Institute (CDRI), presently Director, Industrial Toxicology Research Centre, Lucknow for his invaluable guidance, keen interest, valuable suggestions, constant inspiration and encouragement without which completion of the present study would have been impossible.

"No person feels the deficiency of language so much as the word grateful" said C.S. Colton, so is my state today, when I acknowledge Dr. (Mrs) Madhu Dikshit, Scientist, Division of Pharmacology, Central Drug Research Institute, Lucknow, a researcher of an incomparable power of observation and a person of profound intellect. I am glad to express my gratitude for her creative guidance, constant encouragement, critical appreciation, untiring help and the kindness which she always bestowed on me. In fact, words are insufficient to express her magnanimity. I shall remain ever indebted to her.

I sincerely wish to express my thankfulness to Prof. B.N. Dhawan, Ex-Director, Dr. V.P. Kamboj, the present Director, Central Drug Research Institute and Dr. G.K. Painaik, Head & Sr. Deputy Director, Division of Pharmacology, Central Drug Research Institute for providing me necessary facilities during this study.

I will be failing in my duty if I do not put on record the everwilling help, support and cooperation to me by Dr. Ranjana Kumari in the initial execution of my experiments. I am also thankful to Mrs Jharna Arun for her immense care and affection. They stood by my side at all different odds which were faced by me during the tenure of this task.

I am very thankful to Mr. A.N. Tangri & Mr. O.S. Tiwari, of Division of Clinical and Experimental Medicine, and Mr. M.S. Ansari, Mr. R.M. Saxena, Mr. C.P. Pandey and Mr. G.P. Singh, of Division of Pharmacology, for the technical services rendered by them to me. It would have been difficult for me to accomplish the work without their kind cooperation.

I fail to gather appropriate words to express my special thanks to my close lab mates Dr. Arti Shukla, Dr. L.G. Hegde, Mrs. Leena Rastogi, Ms. Priti Verma and Miss. Suchitra Chari for their timely help and support to achieve my best.
A gleam of thanks to all my dear friends particularly, Mr. Anil Sharma, Mr. Rakesh & Saurabh Verma, Mr. N.V. Nagraj, Mr. J.Y.P. Rao, Miss. Anamika Mohan Rasik & Miss. Seema Goel and my Seniors Drs. Subhash & Raman Tripathi for their much needed moral support in my odd moments. I am very grateful to all of them.

My thanks are also due to Mr. Kishori Lal for timely procuring the experimental animals, Mr. Hardwari and Mr. Brij Kishore for their assistance in day to day other routine works of the lab and providing neat and clean glass wares for experimental work. At this juncture, I cannot forget Mr. J.B. Kishore, STA, Division of Pharmacology, CDRI, who use to stay back almost every evening, even after his working hours, till completion of my long experiments.

I also wish to thank Mr. Prakash Chandra, Mr. R.M. Pathak, Mr. Ravindra & Mr. G. C. Gupta of drawing & photography Division of CDRI, who were very cooperative in preparing excellent tracings and photographs for the presentation of my experimental data.

Above all, I express my deep sense of indebtedness to all my teachers, for their academic training and inspiration during the years of my studentship which enabled me to reach to a point from where I am able to view the long and arduous road to higher knowledge clearly.

I will remain indebted to my Grandfather, father, mother, uncle and aunt, sisters- Ritu & Nidhi, cousins- Shilpi & Prashant for their affection, support and sacrifice which enabled me to reach to my present position.

Appreciation is also greatly felt, for my friends at 21st Century Computers, Lucknow for the pains taken by them for typing and composing this dissertation in the present form.

I am extremely grateful to Department of Ocean Development and Council of Scientific & Industrial Research, New Delhi for providing me financial assistance to carry out the present study.

Last but not the least, I owe much to all my experimental animals who sacrificed their lives for a better understanding in the field of biomedical research.

(PANKAJ SETH)
