LIST OF FIGURES

Figure 1. Weather factors prevailing in crop season during 2007-08.

Figure 2. Weather factors prevailing in crop season during 2008-09.

Figure 3. Weather factors prevailing in crop season during 2007-09 (Average).

Figure 4. Larval population buildup of *H. armigera* in chickpea during 2007-09.

Figure 5. Larval parasitization of *H. armigera* in chickpea during 2007-09.

Figure 6. Efficacy of biopesticides against *H. armigera* after first spray on 3rd day of spray in chickpea crop.

Figure 7. Efficacy of biopesticides against *H. armigera* after second spray on 3rd day of spray in chickpea crop.

Figure 8. Efficacy of biopesticides against *H. armigera* after third spray on 3rd day of spray in chickpea crop.

Figure 9. Efficacy of biopesticides against *H. armigera* after first spray on 7th day of spray in chickpea crop.

Figure 10. Efficacy of biopesticides against *H. armigera* after third spray on 7th day of spray in chickpea crop.
Figure 11. Effect of biopesticides on pod damage caused by *H. armigera* and in yield during 2007-08.

Figure 12. Effect of biopesticides on pod damage caused by *H. armigera* and in yield during 2008-09.

Figure 13. Effect of biopesticides on pod damage caused by *H. armigera* and in yield during 2007-09 Pooled).
