List of Tables ix
List of Figures xiii
List of Abbreviations Used xv

Chapter 1: Introduction 1-16
  1.1 Background 1
  1.2 Rationale of the study 5
  1.3 Indian Securities Market: An Overview 7
  1.4 Objectives of the Study 8
  1.5 Testable Hypothesis 9
  1.6 Data and Data Sources 11
  1.7 Research Methodology 13
  1.8 Organisation of the Study 15

Chapter 2: Conceptual Framework 17-26

Chapter 3: Review of Literature 27-72
  I Studies investigating the predictability of stock returns over long interval of few years based on their prior period return behavior 28
  II Studies investigating the predictability of stock returns over intermediate horizon of few months based on their prior period return behavior 51
  III. Studies investigating the predictability of stock returns over very short interval of few days based on their prior period return behavior 57
Chapter 4: Research Methodology

- Test Procedures: Details
  4.1 Data
  4.2 Methodology
    4.2.1 Testing the cross-sectional behaviour of security prices following extreme price changes: An initial investigation
      4.2.1.a Using stocks daily adjusted closing price data: Overlapping test periods
      4.2.1.b Using stocks daily adjusted closing price data: Non-Overlapping test periods
      4.2.1.c Using stocks intra-day price data
    4.2.2 Factors explaining the cross-sectional behaviour of security prices following extreme price changes
    4.2.3 Trading Strategy
  4.3 Rationale behind the Choice of Dataset

Chapter 5: Subsequent Stock Price Behaviour following Extreme Daily Price Changes: An Initial Evidence

5.1 Statistics describing the Characteristics of the Sample
5.2 Large Price Changes: Measuring the Post-event Abnormal Returns
5.3 Large Price Changes in Different Market Conditions: Measuring the Post-event Abnormal Returns
5.4 Large Price Changes: Measuring the Post-event Abnormal Returns over Non-Overlapping Test Periods

Chapter 6: Factors Explaining the Subsequent Security Returns Following Extreme Daily Price Changes: An Investigation

6.1 Large Price Changes and Subsequent Cross-Sectional Returns Behaviour: Analysing the Possible Explanations
6.2 Subsequent Cross-Sectional Returns Behaviour following Large Price Changes in Different Market Conditions: Analysing the Possible Explanations
6.3 Large Price Changes and Subsequent Cross-Sectional
Returns Behaviour during Non-Overlapping Test Period Days: Analysing the Possible Explanations

Chapter 7: Subsequent Stock Price Behaviour following Extreme Intra-day Price Changes: An Evidence

7.1 Statistics describing the Characteristics of the Sample

7.2 Measuring the Market’s Abnormal Reaction during Pre-Noon Trading Hours following Extreme Price Changes at 9:15 a.m.

7.3 Measuring the Market’s Abnormal Reaction during Post-Noon Trading Hours following Extreme Price Changes at 12:15 p.m.

7.4 Large Price Changes Observed at 9:15 a.m. Daily and Subsequent Cross-Sectional Returns Behaviour during Pre-Noon Trading Hours: Analysing the Possible Explanations

7.5 Large Price Changes Observed at 12:15 p.m. Daily and Subsequent Cross-Sectional Returns Behaviour during Post-Noon Trading Hours: Analysing the Possible Explanations

Chapter 8: Testing the Profitability of Trading Strategy based on Cross-Sectional Behaviour of Subsequent Security Returns

8.1 Testing the Profitability of Investment Strategy Executed Over Few Days Following the Event of Extreme Daily Price Changes

8.2 Testing the Profitability of Investment Strategy Executed over Few Ticks Following the Event of Extreme Intra-day Price Changes

Chapter 9: Summary and Conclusions

- Findings of the Study
  A. For extreme daily price changes
  B. For extreme intra-day price changes

- Implications of Research Findings
  I. Implications for Policy Regulators
  II. Implications for Small and Retail Investors
  III. Implications for Traders and Fund Managers
• Contribution of Study 222
• Limitations of the Study 224
• Scope for Further Research 225

APPENDICES 239-297

Appendix-I: List of Sample Companies 239

Appendix-II: Regression Output of Testing the Impact of MCAP, BTM and AR variables on Buy-and-Hold Average Abnormal Returns of Winner and Loser Portfolio formed corresponding to Extreme Daily Price Changes, for Total Study Period of Five Years 245

Appendix-III: Regression Output of Testing the Impact of MCAP, BTM and AR variables on Buy-and-Hold Average Abnormal Returns of Winner and Loser Portfolio formed corresponding to Extreme Daily Price Changes, for Three Sub-periods Analysed separately 251

Appendix-IV: Regression Output of Testing the Impact of MCAP, BTM and AR variables on Buy-and-Hold Average Abnormal Returns of Winner and Loser Portfolio formed corresponding to Extreme Daily Price Changes, for Non-Overlapping Test Period Days 269

Appendix-V: Regression Output of Testing the Impact of MCAP, BTM and AR variables on Buy-and-Hold Average Abnormal Returns of Winner and Loser Portfolio formed corresponding to Extreme Intra-day Price Changes observed at 9:15 a.m. 275

Appendix-VI: Regression Output of Testing the Impact of MCAP, BTM and AR variables on Buy-and-Hold Average Abnormal Returns of Winner and Loser Portfolio formed corresponding to Extreme Intra-day Price Changes observed at 12:15 p.m. 281
Appendix-VII: Regression Output of Daily Investment Strategy

Appendix-VIII: Regression Output of Intra-day Investment Strategy corresponding to 9:15 a.m.

Appendix-IX: Regression Output of Daily Investment Strategy corresponding to 12:15 p.m.
