Acknowledgements

The period of research work has proved to be the most exciting phase of my life. It's just like climbing a peak step by step, with perseverance, encouragement, trust and patience, and with so many people's kind help. I realized that it was in fact teamwork that got me through my PhD periods. Though it will not be enough to express my gratitude in words to all those people who helped me and made indispensable contribution to the existence of thesis, I would still like to give my many many thanks to all these people.

Foremost, I would like to thank my guide and mentor Prof. M. V. Rajam who willingly gave his consent to accept me as his student at an important stage of my career. I am deeply indebted to him for his valuable guidance, affection incessant encouragement, constructive criticisms, expedient advices and enthusiasm that, taken together, make him a great mentor. Thank you so much sir for all the support through these years.

I am thankful to Dr. R.K. Pal, at IARI, for his supervision and providing me the facilities in his lab, for carrying out the important part of my thesis work.

I would like to express my sincere gratitude to Prof. Sheela Srivastava, Prof. Deepak Pental, Prof. Akshay K. Pradhan, Prof. B.K. Thelma, Dr. P. K. Burma, Dr. Surajit Sarker, Dr. Jagreet Kaur, Dr. Tapasya, Dr. Kaustav and Dr. Aruna for their valuable encouragements, inputs and suggestions.

I owe a great deal of thanks to Ranjita for all the wonderful time we spent together as the Sir call it fondly, as 'apka best friend'. I extend my heartfelt thanks to Neeti, Saaraj, Sumitabho, Mamta, Srijuna, Utsav, Aditi, Rajni, Priyanka, Chanchu, Cheshita, Tamil, for all the friendships, encouragement, fun as well as good advice. They have contributed immensely to my personal and professional time during the pursuit.

As an integral part of this MVR family, I thank all my seniors and friends Dr. Brijesh, Dr. Maneesh, Dr. Pranjal, Dr. Sandeepa, Dr. Tushara, Dr. Anupama, Dr. Ashwin, Dr. Prabha, Enna, Snigdh, Shikha, Shipra, Ami, Bhawna, Anjali, Devendra, Gayatri, Jhansi, Laxmi, Mahak, Meenakshi, Manish, Neeru, Natraj, Rajendher, Ruchi, Asha, Astha, Rohini, Sneha, Zaffir, for their help and cheerful support during my stay at lab.

I especially thank Dr. Tushara for proofreading the manuscript thoroughly. I am thankful to Amol sir, Dheeraj sir, Paritosh sir, Ritu, Ratnesh, Anuradha, Anuj, Shilpi, my thesis writing partners; Theneral and Enna for their help and chats.

I am thankful to Kasthuri, Sneha, Anand and Sudipa for the accounts maintenance and Singh Ji and Elke Ji for assisting in field work. I would also like to thank Neelam Ma'am, Kunju Sir, Antram Sir, Manohar Lal Ji, S. K. Singh, Mansa, Vandana, Bharat Ji and Naved for their help.

I am grateful to the Department of Biotechnology for generously supporting the thesis work through a research grant to MVR, UGC for Special Assistance Programme (SAP), DST for FIST programme to the department.

I gratefully acknowledge the senior research fellowship provided by the Council of Scientific and Industrial Research. I express my gratefulness to Delhi University Library System for the electronic access to research journals.

I would like to express my thanks and gratitude to the almighty God, the most beneficent and the most merciful, who granted me ability and willing to start and complete this thesis.

Finally, I want to express my appreciation to my parents, and siblings; Sumit, Nisha, Neena, Payal and Tina, for their love, understanding, patience, endless support, and never failing faith in me.
