

## LIST OF FIGURES

<b>Figure No.</b>	<b>Title</b>	<b>Page No.</b>
Figure 4.1	Calculated versus Experimental band gaps of III-N (InN, AlN, GaN) using mBJ and mBJSC at various optimizations.	50
Figure 4.2	Band structures and DOS of ZBGaN with PBEsol and mBJ approximations.	52
Figure 4.3	Band structures and DOS of ZBAlN with PBEsol and mBJ approximations.	53
Figure 4.4	Band structures and DOS of ZBInN with PBEsol and mBJ approximations.	54
Figure 4.5	Band structures and DOS of WZInN with PBEsol and mBJ approximations.	55
Figure 4.6	Band structures and DOS of WZGaN with PBEsol and mBJ approximations.	56
Figure 4.7	Band structures and DOS of WZAlN with PBEsol and mBJ approximations.	57
Figure 4.8	Band structures and DOS of ZBAlP obtained with PBEsol and mBJ approximations.	60
Figure 4.9	Band structures and DOS of ZBGaP obtained with PBEsol and mBJ approximations.	61
Figure 4.10	Band structures and DOS of ZBInP obtained with PBEsol and mBJ approximations.	62
Figure 4.11	Band structures of ZBBP in obtained with PBEsol and mBJ approximations.	63
Figure 4.12	Band structures and DOS of WZBeO obtained with PBEsol and mBJ approximations.	66
Figure 4.13	Band structures and DOS of ZBBeS obtained with PBEsol and mBJ approximations.	67
Figure 4.14	Band structures and DOS of ZBBeSe obtained with PBEsol and mBJ approximations.	68

Figure 4.15	Band structures and DOS of ZBBeTe obtained with PBEsol and mBJ approximations.	69
Figure 4.16	Band structures and DOS of RSMgO obtained with PBEsol and mBJ approximations.	70
Figure 4.17	Band structures and DOS of RSMgS obtained with PBEsol and mBJ approximations.	71
Figure 4.18	Band structures and DOS of RSMgSe obtained with PBEsol and mBJ approximations.	72
Figure 4.19	Band structures and DOS of WZMgTe obtained with PBEsol and mBJ approximations.	73
Figure 4.20	Band structures and DOS of RSCdO obtained with PBEsol and mBJ approximations.	76
Figure 4.21	Band structures and DOS of ZBCdS obtained with PBEsol and mBJ approximations.	77
Figure 4.22	Band structures and DOS of ZBCdSe obtained with PBEsol and mBJ approximations.	78
Figure 4.23	Band structures and DOS of ZBCdTe obtained with PBEsol and mBJ approximations.	79
Figure 5.1	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZAlN with PBEsol mBJ approximation.	89
Figure 5.2	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZAlN with mBJ approximation.	90
Figure 5.3	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBAlN with PBEsol approximation.	91
Figure 5.4	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBAlN with mBJ approximation.	92
Figure 5.5	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZGaN with PBEsol approximation.	93

Figure 5.6	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZGaN with mBJ approximation.	94
Figure 5.7	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBGaN with PBEsol approximation.	95
Figure 5.8	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBGaN with mBJ approximation.	96
Figure 5.9	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZInN with PBEsol approximation.	97
Figure 5.10	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZInN with mBJ approximation.	98
Figure 5.11	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBInN with PBEsol approximation.	99
Figure 5.12	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBInN with mBJ approximation.	100
Figure 5.13	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), and Refractive index of ZBBN with PBEsol approximation.	101
Figure 5.14	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBN with mBJ approximation.	102
Figure 5.15	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBAIP with PBEsol approximation.	103
Figure 5.16	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBAIP with mBJ approximation.	104

Figure 5.17	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBP with PBEsol approximation.	105
Figure 5.18	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBP with mBJ approximation.	106
Figure 5.19	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBGaP with PBEsol approximation.	107
Figure 5.20	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBGaP with mBJ approximation.	108
Figure 5.21	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBInP with PBEsol approximation.	109
Figure 5.22	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBInP with mBJ approximation.	110
Figure 5.23	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZBeO with PBEsol approximation.	111
Figure 5.24	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZBeO with mBJ approximation.	112
Figure 5.25	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBeS with PBEsol approximation.	113
Figure 5.26	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBeS with mBJ approximation.	114
Figure 5.27	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBeSe with PBEsol approximation.	115

Figure 5.28	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBeSe with mBJ approximation.	116
Figure 5.29	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBeTe with PBEsol approximation.	117
Figure 5.30	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBBeTe with mBJ approximation.	118
Figure 5.31	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSMgO with PBEsol approximation.	119
Figure 5.32	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSMgO with mBJ approximation.	120
Figure 5.33	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSMgS with PBEsol approximation.	121
Figure 5.34	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSMgS with mBJ approximation.	122
Figure 5.35	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSMgSe with PBEsol approximation.	123
Figure 5.36	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSMgSe with mBJ approximation.	124
Figure 5.37	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZMgTe with PBEsol approximation.	125
Figure 5.38	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of WZMgTe with mBJ approximation.	126

Figure 5.39	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSCdO with PBEsol approximation.	127
Figure 5.40	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of RSCdO with PBEsol approximation.	128
Figure 5.41	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBCdSe with PBEsol approximation.	129
Figure 5.42	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBCdSe with mBJ approximation.	130
Figure 5.43	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBCdS with PBEsol approximation.	131
Figure 5.44	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBCdSe with mBJ approximation.	132
Figure 5.45	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBCdTe with PBEsol approximation.	133
Figure 5.46	Frequency response curves for Absorption coefficient, Energy loss, Dielectric function (Real and Imaginary part), Refractive index of ZBCdTe with mBJ approximation.	134
