List of Figures and Tables

List of Figures

**Figure 1.1**: Harappan seals discovered from the period II at Farmana (Figure nos. 1, 2, 4 and 5) and stored in Okayama Orient Museum (Figure no. 3) (After Konasukawa 2011a and Shinde et al. 2011; see also photographs and PEAKIT images in Figures 6.20, 21, 27, 31, 35 and 39)......................... 4

**Figure 1.2**: Harappan seals discovered from the period II at Banawali (see also photographs and PEAKIT images in Figures 6.45 and 48)........................................................................................... 5

**Figure 1.3**: Harappan seals discovered from the period II at Banawali (see also photographs and PEAKIT images in Figures 6.52, 55, 57, 61, 65, 69 and 74)............................................................. 6

**Figure 1.4**: Broken pieces of the Harappan seals discovered from the period II at Banawali (see also Figures 1.5 and 1.6, photographs and PEAKIT images in Figure 6.73)................................. 7

**Figure 1.5**: Broken pieces of the Harappan seals discovered from the period II at Banawali (see also Figure 1.4).................................................................................................................................. 8

**Figure 1.6**: Broken pieces of the Harappan seals discovered from the period II at Banawali (see also Figure 1.4).................................................................................................................................. 9

**Figure 1.7**: Harappan sealings discovered from the period II at Farmana (After Shinde et al. 2011; see also Figure 1.8).................................................................................................................. 10

**Figure 1.8**: Harappan sealings discovered from the period II at Farmana (After Shinde et al. 2011; see also Figure 1.7)................................................................................................................. 11

**Figure 1.9**: A Harappan sealing discovered from the period II at Farmana (see also Figure 1.10).......................................................................................................................................................... 12

**Figure 1.10**: A Harappan sealing discovered from the period II at Farmana (see also Figure 1.9).......................................................................................................................................................... 13

**Figure 1.11**: Sites and regions discussed in the present study................................................................. 15

**Figure 2.1**: Regional variations of the ceramic assemblages in Harappan Civilization......................... 31

**Figure 3.1**: Fired steatite seals discovered from the period IC(i) at Kunal (see also Figures 3.2 and 3.3, photographs and PEAKIT images in Figure 6.4, 5, 6, 12 and 16)......................................................... 41

**Figure 3.2**: Fired steatite seals discovered from the period IC(i) at Kunal (see also Figure 3.1)............ 42

**Figure 3.3**: Fired steatite seals discovered from the period IC(i) at Kunal (see also Figure 3.1)........... 43

**Figure 3.4**: Seals and a sealing discovered from the period IC(i) at Kunal (see also Figures 3.5 to and 3.7)................................................................................................................................. 44

**Figure 3.5**: Seals discovered from the period IC(i) at Kunal (see also Figure 3.4)................................ 45

**Figure 3.6**: Seals discovered from the period IC(i) at Kunal (see also Figure 3.4)................................ 46
Figure 3.7: A Sealing discovered from the period IC(i) at Kunal (see also Figure 3.4)................. 47
Figure 3.8: Distribution pattern of the seals and the representative pottery types in the Pre-/Early Harappan period (Drawings of the seals in Figure 3.8 are not to scale and each number means each site)....................................................................................... 52
Figure 3.9: An ivory seal discovered from the period IA at Rehman Dheri (After Shah and Parpola 1991; not to scale)................................................................................................................................................................................................. 54
Figure 3.10: Scatter plot of the measurement of seals in the Pre-/Early Harappan period................. 58

Figure 4.1: Sites that have yielded Harappan seal(s) and the sealing(s)........................................ 66
Figure 4.2: Sites and regions discussed in the present study........................................................ 67
Figure 4.3: A convex-type seal discovered from the period II at Banawali (see also photographs and PEAKIT images in Figure 6.75)......................................................................................................................................................................................... 68
Figure 4.4: A tablets in bas-relief discovered from the period II at Banawali.................................. 69
Figure 4.5a & 5b: Scatter plot of the measurement of Harappan seals (5a: Bison, 5b: Zebu)........ 77
Figure 4.6a & 6b: Scatter plot of the measurement of Harappan seals (6a: Elephant, 6b: Rhinoceros)................................................................................................................................................................................................. 79
Figure 4.7a & 7b: Scatter plot of the measurement of Harappan seals (7a: Goat, 7b: Tiger)........ 81
Figure 4.8a & 8b: Scatter plot of the measurement of Harappan seals (8a: Buffalo, 8b: Other bovines_urus)................................................................................................................................................................................................. 83
Figure 4.9a & 9b: Scatter plot of the measurement of Harappan seals (9a: Gharial, 9b: Unicorn-1)................................................................................................................................................................................................. 85
Figure 4.10a & 10b: Scatter plot of the measurement of Harappan seals (10a: Unicorn-2, 10b: Unicorn-3)................................................................................................................................................................................................. 86
Figure 4.11a & 11b: Scatter plot of the measurement of Harappan seals (11a: Composite animal, 11b: Composite human figure_horned deity)................................................................................................................................................................................................. 88
Figure 4.12a & 12b: Scatter plot of the measurement of Harappan seals (12a: Three headed animal, 13b: Other motifs)................................................................................................................................................................................................. 90
Figure 4.13a & 13b: Scatter plot of the measurement of Harappan seals (13a: Human figure(s) and animal(s), 13b: Horned deity (deities) with either/and human figure(s), animal(s) and plant(s))................................................................................................................................................................................................. 93
Figure 4.14a & 14b: Scatter plot of the measurement of Harappan seals (14a: Swastika, 14b: Group of concentric circles, cross and others)................................................................................................................................................................................................. 95
Figure 4.15: Scatter plot of the measurement of Harappan seals (Only scripts)................................ 97
Figure 4.16: Size categorization of the Harappan seals.................................................................. 98
Figure 4.17a & 17b: Scatter plot of the measurement of Harappan seals (17a: Mohenjodaro, 17b: Chnafudaro)................................................................................................................................................................................................. 107
Figure 4.18a & 18b: Scatter plot of the measurement of Harappan seals (18a: Allahdino, 18b: Bala-kot)................................................................................................................................................................................................. 108
Figure 4.19a & 19b: Scatter plot of the measurement of Harappan seals (19a: Sindh, 19b: Harappa)................................................................................................................................................................................................. 109
Figure 4.20a & 20b: Scatter plot of the measurement of Harappan seals (20a: Kalibangan, 20b:
Figure 4.21a & 21b: Scatter plot of the measurement of Harappan seals (21a: Farmana, 21b: Bhirrana).

Figure 4.22a & 22b: Scatter plot of the measurement of Harappan seals (22a: Ghaggar Basin, 22b: Balochistan).

Figure 4.23a & 23b: Scatter plot of the measurement of Harappan seals (23a: Lothal, 23b: Dholavira).

Figure 4.24a & 24b: Scatter plot of the measurement of Harappan seals (24a: Gujarat, 23b: Other regions).

Figure 5.1: Conceptual diagram about the structure of Harappan seal’s motifs.

Figure 5.2: Motif arrangement patterns and hypothetical boss types.

Figure 5.3: Harappan scripts used in the Harappan seals having a right-facing animal.

Figure 5.4: Common Harappan scripts shared in the Harappan seals having a right-facing animal.

Figure 5.5: Scatter plot of the measurement of Harappan seals having a right-facing animal.

Figure 5.6a & 5.6b: Scatter plot of the measurement of Harappan seals having a right-facing animal (6a: Ghaggar Basin, 6b: Ghaggar Basin excluding Kalibangan).

Figure 5.7: Distribution pattern of the Harappan seals having a right-facing animal.

Figure 6.1: Classification of the carving marks of seals in the Pre-/Early Harappan period.

Figure 6.2: Classification of the carving marks of Harappan seals.

Figure 6.3: Classification of the sections of the body of the animal motifs.

Figure 6.4: Photograph and PEAKIT image of seal discovered from the period IC(i) at Kunal (see also Figure 3.1-1).

Figure 6.5: Photograph, PEAKIT and SEM image of seal discovered from the period IC(i) at Kunal (see also Figure 3.1-1).

Figure 6.6: SEM images of seal discovered from the period IC(i) at Kunal.

Figure 6.7: Photograph, SEM images of seal discovered from the period IC(i) at Kunal (see also Figure 3.1-1).

Figure 6.8: SEM images of seal discovered from the period IC(i) at Kunal.

Figure 6.9: SEM images of seal discovered from the period IC(i) at Kunal.

Figure 6.10: SEM images of seal discovered from the period IC(i) at Kunal.

Figure 6.11: SEM images of seal discovered from the period IC(i) at Kunal.

Figure 6.12: Photograph and PEAKIT image of seal discovered from the period IC(i) at Kunal (see also Figure 3.1-6).

Figure 6.13: Photograph and SEM image of seal discovered from the period IC(i) at Kunal.

Figure 6.14: SEM images of seal discovered from the period IC(i) at Kunal.

Figure 6.15: SEM images of seal discovered from the period IC(i) at Kunal.

Figure 6.16: Photograph and PEAKIT image of seal discovered from the period IC(i) at Kunal (see also Figure 3.1-6).
