ACKNOWLEDGEMENT

First of all, I bow my head before God, for the boundless blessings showered on me, without which I would not have completed this endeavour.

I place on record my indebtedness to Dr. M. Manoharan, Reader and Head, Department of Statistics, University of Calicut, for the inspiring guidance, constructive suggestions and constant encouragement during the entire period of this study.

I would like to express my deep sense of gratitude to Dr. A. K. K. Unni, Chairman, Research Coordination Division, Amrita Institute of Medical Sciences and Research, Kochi and Former Director, Centre of Advanced Studies in Poultry Science, Kerala Agricultural University, Thrissur, for his valuable suggestions and keen interest shown in my research.

I am thankful to Dr. N. Raju, Dr. C. Chandran, Dr. K. Jayakumar, Department of Statistics, University of Calicut for their help and encouragement.

I am grateful to Dr. V. K. G. Unnithan, Smt. T. K. Indirabai and all other faculty members of Department of Statistics, College of Horticulture, Vellanikkara, for their help and cooperation.

Thanks are due to research scholars, librarian, students and office staff of Department of Statistics, University of Calicut.

I will always remember the support extended to me by Dr. P. Anitha, Dr. P. A. Peethambaran, Dr. Leo Joseph and Dr. A. Jalaludeen, faculty members of Centre of Advanced Studies in Poultry Science, Kerala Agricultural University.
I am grateful to the Indian Council of Agricultural Research for having permitted me to make use of the data for the present study.

I thank the Senior Scientist and all the staff of All India Coordinated Research project on Poultry Improvement, Mannuthy for providing the data for the study.

Laly John, C.
