41. Level of employment under different enterprises/ activities per household in beneficiaries and nonbeneficiaries of various categories of respondents.
42. Observed frequencies of socio-economic status of sample respondents.
43. Expected frequencies of socio-economic status of the sample respondents.
44. Calculation of χ^2 for socio-economic status of sample respondents.
45. Socio-economic status of small and marginal farmers.
46. Socio-economic status of landless labourers.
47. Socio-economic status of rural artisans.
48. Socio-economic status of small traders.
49. Social participation of the sample respondents.
50. Social participation of small and marginal farmers.
51. Social participation of landless labourers.
52. Social participation of rural artisans.
53. Social participation of small traders .
54. Annual income of sample respondents.
55. Annual income of small and marginal farmers.
56. Annual income of landless labourers.
57. Annual income of rural artisans
58. Annual income of small traders.

Table No.	Particulars
59.	Level of education of sample respondents.
60.	Level of education of small and marginal farmers .
61.	Level of education of landless labourers.
62.	Level of education of rural artisans
63.	Level of education of small traders.
64.	Material possession of sample respondents
65.	Material possession of small and marginal farmers .
66.	Material possession of landless labourers.
67.	Material possession of rural artisans
68.	Material possession of small traders.
69.	Mass media exposures of sample respondents
70.	Mass media exposures of small and marginal farmers
71.	Mass media exposures of landless labourers.
72.	Mass media exposures of rural artisans.
73.	Mass media exposures of small traders.
74.	Extension contacts of sample respondents
75.	Extension contacts of small and marginal farmers .
76.	Extension contacts of landless labourers.
77.	Extension contacts of rural artisans
78.	Extension contacts of small traders.
79.	purposewise supply of credit to various categories of respondents (per beneficiary).

Table No.	Particulars
80.	Percentage distribution of borrowers of various categories by time-lag in disbursement.
81.	Percentage distribution of borrowers of various categories by proportion of loan amount received against loan amount applied for.
82.	Distribution of borrowers of various categories entitled for subsidy by time-lag between disbursement of loan and receipt of subsidy.
83.	Categorywise distribution of borrowers for utilization pattern of loan.
84.	Purposewise distribution of borrowers for utilization pattern of loan.
85.	Purposewise utilization of loan amount by the sample borrowers.
86.	Utilization of loan amount by the borrowers of various categories.
87.	Utilized and misutilized amount of loan (per borrower)
88.	Number of defaulters and nondefaulters in various categories of sample borrowers.
89.	Stages and extent of defaults in various categories of sample borrowers.
90.	Reasons for overdues provided by the defaulter-borrowers of various categories.
