Acknowledgement

This piece of work will never be accomplished without our god almighty with his blessings and his power that work within me and also without the people behind my life for guiding, inspiring and accompanying me through thick and thin. It is a pleasure to convey my gratitude to them all in my humble acknowledgment. It is difficult to overstate my gratitude to my research director Dr. Rajarajeshwari N, for her untiring effort to make sure that an excellent piece of work was done with her enthusiasm, perpetual energy, inspiration, and great efforts to explain things clearly and simply. She helped to make Ph. D work fun for me. Throughout my PhD programme, She provided encouragement, sound advice, good teaching, good company, and lots of good ideas. I would have been lost without her.

I gratefully acknowledge Dr. Parixit B, who remained a backbone of this research and to this thesis, his kind support and guidance have been of great value in this study.

I also wish to convey my thanks to Dr. Banappa S Unger, Professor KLE college of Pharmacy, Belgaum, Karnataka, for providing his support and helping with me for invitro and invivo activities

I owe my most sincere gratitude to Prof. Yadav and his team, Department of Botany, Shivaji University, Kolhapur, Maharashtra for their untiring help during my difficult moments in identification and collection of Diospyros species.

I would like to thank my Friends Narendra B Gowda, Narendra C, Kiran Nagaraju have been of great support through out this study.

I would like to thank Dr. D.H Harishkumar, Principal, Visveswarapura Institute of Pharmaceutical Sciences, for providing laboratory Facilities.

I enjoyed my doctoral years at JITU University, joining this university was not only a turning point in my life, but also a wonderful experience. I cherished and treasured all precious moments I shared and would really like to thank them.
I would like to share this moment of happiness with my mother Prema Jayaswamy and Brother's Sachin Dev, Bharath Dev. They rendered me enormous support during the whole tenure of my research.

I owe my loving thanks to my wife Reshma. K and my son Vihaan. A. They have lost a lot due to my research. Without their encouragement and understanding it would have been impossible for me to finish this work.

Amar Dev M.J
