List of Tables

Table 1.1: Statistics of AIDS epidemic from 2001-2010

Table 1.2: Worldwide AIDS prevalence

Table 1.3: Strategies reported in the literature for inhibition of HIV-1 infection or replication

Table 1.4: Microbicides and PrEP candidates in ongoing clinical trials

Table 3.1: List of mallotojaponin (phloroglucinol) analogues selected for anti-HIV-1 activity

Table 3.2: List of Buchapine and its analogues selected for study

Table 4.1: Anti-HIV-1 activity of selected dimeric phloroglucinol derivatives

Table 4.2: Anti-HIV-1 activity of quinolone 2,4-diol derivatives

Table 4.3: \( IC_{50} \) and \( CC_{50} \) of phloroglucinols in hPBMCs.

Table 4.4: Anti-HIV activity of compounds in hPBMCs infected with 0.05 MOI of HIV-1\( _{NL4-3} \)

Table 4.5: Assessment of Confluence of ME180 epithelial layer in trans-wells using fluoresphere
