ACKNOWLEDGEMENTS

I wish to place on record my deep sense of gratitude and indebtedness to my respected teacher and guide Dr S.K. Khanna, Ph.D., Assistant Director, Industrial Toxicology Research Centre, Lucknow, for his able guidance, sustained help and constant encouragement, which enabled me to carry out these investigations.

I express my sincere thanks and gratitude to Dr G.B. Singh, M.B.B.S., M.D., F.R.C. Path (Lond), Deputy Director & Scientist-in-Charge, Dye Toxicity Project, Industrial Toxicology Research Centre, Lucknow for providing all the necessary laboratory facilities and for his keen interest and continuous inspiration.

I express my gratefulness to Dr P.K. Ray, Director, Industrial Toxicology Research Centre, Lucknow, for his keen interest and support.

I am indebted to Dr Ravi Shanker, Assistant Director, Industrial Toxicology Research Centre, Lucknow, for his helpful interpretations in the histopathological studies conducted during the present work.

I am very thankful to Dr Anil Joshi, Dr (Miss) Pramilla Shah and Miss Kalpana Garg for their suggestions, cooperation and support during the preparation of this manuscript.
I am personally very grateful to Mr G.M. Nair for his untiring efforts in typing this dissertation.

I cannot adequately express in words my gratitude to my family members, mentors, colleagues and friends for their constant encouragement, motivation and moral support.

I will be failing in my duty, if I do not record my sincere gratefulness to my affectionate wife Uma for her extreme devotion, understanding and patience extended to me.

I am highly thankful to Indian Council of Medical Research, New Delhi, India for the award of Junior and Senior Research Fellowships during the tenure of the present study.

Ram Lakhan Singh
