PUBLICATIONS
9. Publications

I. Papers Published/In Press/Communicated

II. Papers presented at symposia and abstracted

1. "Kinetics of proinflammatory cytokines and NO production in RAW 264.7 cell line in response to various life stages of Brugia malayi."

2. "Enhanced establishment and survival of Brugia malayi infection in Mastomys coucha after immunization with a fractionated adult worm extract."

3. "Responses of Brugia malayi infected Mastomys coucha treated with diethylcarbamazine and albendazole to re-exposure to infection."

5. Evidence for direct action of Diethylcarbamazine on the Brugia malayi adult worm: Immuno reactivity pattern of adult worm exposed to DEC in vitro and in vivo."

6. "Inflammatory antigens of Brugia malayi and their effect on rodent host Mastomys coucha."

7. "Immunofluorescent localization of octopamine in adult worm of Brugia malayi."

8. "Effect of Filarial infection on the progression of experimental Leishmania donovani infection in Hamsters."

9. "Immunization against experimental visceral leishmaniasis with fraction of adult Brugia malayi extract in hamsters."
Publications

11. "Cytokine release-stimulating potential of Brugia malayi adult worm molecules and their effect on host’s mast cells."

12. "Immune responses of Mastomys coucha immunized with BmAFL fraction of Brugia malayi adult extract and exposed to infection."

13. "Antigen recognition pattern of sera of Brugia malayi infected Mastomys coucha treated with diethylcarbamazine or albendazole and reexposed to infection."
