ACKNOWLEDGEMENT

I express deep sense of gratitude to my supervisor Dr. E. Natarajan, Professor, Institute for Energy Studies, Department of Mechanical Engineering, Anna University for his constant encouragement, help and valuable guidance in carrying out the research work.

I am grateful to my Doctoral committee members, Dr. M. Kumaravel, Professor and Head, Central Electronic Centre, IIT, Madras, Chennai, Dr. D. Mohanlal, Assistant Professor, Department of Mechanical Engineering, Anna University, Chennai and Dr. S. Seetharaman, Principal, Sri Sai Ram Engineering College, Chennai for providing the necessary support, review and guidance. My special thanks are due to Ms. Selvi, District Rural Development Agency (DRDA), Pondicherry, for her generous help in various stages for the completion of this research work.

I sincerely thank Dr. R. Sethumadhavan, Director, Institute for Energy Studies, Anna University, Chennai and Dr. G. Thanigaiarasu, Professor and Head, Department of Mechanical Engineering, Anna University, Chennai. Finally, I wish to thank all those helped directly or indirectly in completing this research work.

A. RAJENDRA PRASAD
