# LIST OF TABLES

Table 1: Summary of Regulatory Forms as a Function of Valence of End States as a Reference Point and Direction of Means ................................................................. 19

Table 2: List of Frequently Used Product Categories – Pretest 1 – Phase 1.................................................. 65

Table 3: Mean Product Involvement Scores – Pretest 1 – Phase 2.......................................................... 67

Table 4: List of Brand Names for Selected Product Categories – Pretest 2 – Phase 1 ....................... 69

Table 5: Mean Brand Familiarity Scores of Mobile Phone Brands – Pretest 2 – Phase 2 ................. 71

Table 6: Mean Brand Familiarity Scores of Laptop Brands – Pretest 2 – Phase 2 ......................... 72

Table 7: Mean Brand Familiarity Scores of Mineral Water Brands – Pretest 2 – Phase 2 ......... 73

Table 8: Mean Brand Familiarity Scores of Cosmetic Brands – Pretest 2 – Phase 2 ................. 74

Table 9: Overview of the Experimental Stimuli .................................................................................. 77

Table 10: Variables, Measurement Tools and Original Scales for References.............................. 81

Table 11: Reliability Measures of Constructs Used in Study 1 ......................................................... 91

Table 12: Reliability Measures of Constructs Used in Study 2 ..................................................... 92

Table 13: Summarized Factor Analysis Results – Study 1 .............................................................. 95
Table 14: Summarized Factor Analysis Results – Study 2 ................................................................. 96

Table 15: Regression Models for Testing Effects of Covariates – Study 1 and Study 2 .................. 97

Table 16: Summarized Results of Effects of Covariates – Study 1 ................................................. 99

Table 17: Summarized Results of Effects of Covariates – Study 2 ................................................. 100

Table 18: Descriptive Statistics of the Sample – Study 1 and Study 2 .............................................. 101

Table 19: Paired t-tests Comparing Promotion Focus and Prevention Focus – Study 1 ............... 103

Table 20: ANOVAs Comparing Promotion Focus and Prevention Focus – Study 1 .................... 104

Table 21: Paired t-tests Comparing Promotion Focus and Prevention Focus – Study 2 ............... 105

Table 22: ANOVAs Comparing Promotion Focus and Prevention Focus – Study 2 .................... 106

Table 23: ANOVAs Comparing Implicit and Explicit Memory between Promotion Focused Subjects and Prevention Focused Subjects – Study 1 ................................................................. 109

Table 24: ANOVAs Comparing Implicit and Explicit Memory between Promotion Focused Subjects and Prevention Focused Subjects – Study 2 ................................................................. 109

Table 25: ANOVAs Comparing Advergame Evaluation between Promotion Focused Subjects and Prevention Focused Subjects – Study 1 and Study 2 ................................................................. 111

Table 26: ANOVA and Independent Sample t-tests Comparing Attitude toward Embedded Brands between Promotion Focused Subjects and Prevention Focused Subjects – Study 1 ....................... 113

Table 27: Robustness Tests of Equality of Means – Study 1 .............................................................. 114
Table 28: ANOVA and Independent Sample t-tests Comparing Attitude toward Embedded Brands between Promotion Focused Subjects and Prevention Focused Subjects – Study 2 .................................116

Table 29: Paired t-tests Comparing Emotions between Game Trials for Promotion Focused Subjects and Prevention Focused Subjects – Study 1 .................................................................................................................118

Table 30: Paired t-tests Comparing Emotions between Game Trials for Promotion Focused Subjects and Prevention Focused Subjects – Study 2 .................................................................................................................119

Table 31: Summary Result of Hypothesis Testing .................................................................................................................................................................................................120
LIST OF FIGURES

Figure 1: Conceptual Framework of the Research.................................................................62

Figure 2: Schematic Representation of Experimental Procedure .............................................88
