ACKNOWLEDGEMENT

I would like to sincerely acknowledge the following for their valuable aid during this research work

➢ Prof. Bhalchandra M. Bhanage for constant support, guidance, supervision and crucial contribution towards this research work.
➢ Prof. Rekha S. Singhal for continuous support, encouragements, advice, and discussion during the whole research work.
➢ Prof. Lee D. Wilson for incessant support, encouragements, guidance which helped me to carryout good value of research in limited period at University of Saskatchewan, Canada.
➢ UGC-SAP for providing me the fellowship during this research work.
➢ Amano Enzymes Ltd, (Japan, USA) and Advanced Enzyme Technologies Ltd, (India) for providing lipase. Also, ChiralVision Ltd, (Netherlands) for providing Immobeads-350, immobilization support.
➢ Mr. Kiran Bhotkar from ICON limited for providing SEM-EDAX analysis.

My gratitude is also for those whose names cannot be mentioned one by one here but have helped me in different ways and without them this research would not be successful.

Thanks All,

Kishor D.
