ACKNOWLEDGEMENT

The author wishes to express his sincere thanks to his research Supervisor, Dr. Monsingh D Devadas, Professor of Architecture and Dean, School of Architecture and Planning Campus, Anna University Chennai, for his encouragement support and guidance. The author wishes to place on record his gratitude and gratefulness to the Joint Supervisor Dr. A.N. Sachithanandan, Dean, MEASI Academy of Architecture, Chennai and former Director of School of Architecture and Planning under whose constant guidance and focused direction this research was carried out. The author also wishes to thank Dr. A. Srivathsan for his advice and guidance during the initial stages.

The author wishes to thank the Doctoral Committee Members, Dr. Sasikala Bhooshan, Mysore and Prof. K.T. Ravindran, New Delhi for the guidance and direction they had given during the progress of this research.

The author wishes to place on record his sincere thanks to many institutions, various government and quasi government organisations whose contributions have provided the necessary foundation for this research. The author would like to thank the Town Planners and Practising Architects who have shared their experience and given valuable inputs and data for this research. The author is also grateful to many representatives of the I.T. companies, employees and developers for their contribution in terms of opinion and views. Finally, the author wishes to thank his family, friends and colleagues who have extended their cooperation and support in completing this research work.

(K. SURESH)
