ACKNOWLEDGEMENT .................................................. Error! Bookmark not defined.

SYNOPSIS ........................................................................ Error! Bookmark not defined.

1 INTRODUCTION .......................................................... Error! Bookmark not defined.

1.1 Uncertainty in Supply Chain and Its Effects on Individual Firms Error! Bookmark not defined.

1.2 Single Sourcing vs. Multiple Sourcing Dilemma Error! Bookmark not defined.

1.3 Motivation of the Study .............................................. Error! Bookmark not defined.

2 LITERATURE REVIEW .................................................. Error! Bookmark not defined.

2.1 Uncertainty in Organization Theory ....................... Error! Bookmark not defined.

2.2 Different Types of Uncertainties ............................ Error! Bookmark not defined.

2.3 Uncertainty and Inventory Models ......................... Error! Bookmark not defined.

2.3.1 Supplier Uncertainty in Inventory Models Error! Bookmark not defined.

3 GAPS IN LITERATURE .................................................. Error! Bookmark not defined.

4 MODEL DEVELOPMENT .............................................. Error! Bookmark not defined.

4.1 Problem Description .............................................. Error! Bookmark not defined.

4.2 Model 1: Single Period Context ......................... Error! Bookmark not defined.

4.2.1 Problem Description ....................................... Error! Bookmark not defined.

4.2.2 Development of Model 1 ............................... Error! Bookmark not defined.
4.3 Model 2: Multi-Period Context

4.3.1 Problem Description

4.3.2 Development of Model 2

5 SOLUTION

5.1 Single Period (Model 1) Solution

5.1.1 Concavity of the Expected Profit Function

5.1.2 Unconstrained Solution

5.1.3 Constrained Solution

5.1.4 Non-negativity Constraint

5.1.5 Back-up Supplier Limit Constraint

5.2 Multi-Period Solution

5.2.1 Infinite Time Horizon Solution

5.2.2 Finite Time Horizon Solution

6 SENSITIVITY ANALYSIS

6.1 Single Period Solution

6.1.1 Sensitivity with respect to the Price of the Product

6.1.2 Sensitivity with respect to the Salvage Value of the Product

6.1.3 Sensitivity with respect to the Penalty Cost
6.1.4 Sensitivity with respect to the Inventory Holding Cost
6.1.5 Sensitivity with respect to the Mean Yield of the Minimum Cost Supplier
6.1.6 Sensitivity with respect to the Standard Deviation of Yield of the Minimum Cost Supplier

6.2 Multi-period Solution
6.2.1 Sensitivity with respect to the Price of the Product
6.2.2 Sensitivity with respect to the Penalty Cost
6.2.3 Sensitivity with respect to the Inventory Holding Cost
6.2.4 Sensitivity with respect to the Mean Yield of the Minimum Cost Supplier
6.2.5 Sensitivity with respect to the Standard Deviation of Yield of the Minimum Cost Supplier

7 CONCLUSION AND AVENUES FOR FUTURE RESEARCH
7.1 Contribution of the Study
7.2 Limitations of the Study
APPENDIX 1: NOTATIONS AND MODELS OF EXISTING LITERATURE

APPENDIX 2: SOLUTION TO THE DYNAMIC PROGRAMMING PROBLEM
