ACKNOWLEDGEMENT

I am indebted to my research supervisor Dr. K. Prakasan, Professor and Head, Department of Production Engineering, PSG College of Technology, for his scholarly advice, valuable suggestions, immense help, encouragement and guidance throughout this project. He contributed extensively to the solving of difficult problems encountered and from whom I have gained valuable insights into scientific methodology and research.

Thanks should be extended to Mrs. Roopa Rani, Principal Investigator (DST-WOS), Department of Production Engineering, PSG College of Technology, for her effort, guidance and assistance during this study.

I express my profound sense of gratitude to Dr. R. Rudramoorthy, Principal, PSG College of Technology, for his willingness to be on my committee and for his valuable encouragement and many useful suggestions. I am grateful to Management of PSG College of Technology for the facilities provided during the course of my work.

It gives me immense pleasure to sincerely thank every one who helped me in various ways to complete this thesis.

K.S. SURESH
