

## LIST OF TABLES

Table No	Title	Page No
4.1	The socio demographic details of the respondents	102
4.2.1	The percentage scores of respondents on DMQ-R-on sub scale coping motives (COP) – before psychosocial education	106
4.2.2	The percentage scores of respondents on DMQ-R on sub scale coping motives (COP) after psychosocial education	109
4.2.3	The percentage scores of respondents on DMQ-R- on sub scale Conformity motives. (CON)before psychosocial education	112
4.2.4	The percentage scores of respondents on DMQ-R- on sub scale Conformity motives. (CON)after psychosocial education	114
4.2.5	The percentage scores of respondents on DMQ-R on sub scale social motives (SOC) before psychosocial education	117
4.2.6	The percentage scores of respondents on DMQ-R on sub scale social motives (SOC) after psychosocial education	120
4.2.7	The percentage scores of respondents on DMQ-R on sub scale enhancement motives (ENH) before psychosocial education	123
4.2.8	The percentage scores of respondents on DMQ-R on sub scale enhancement motives (ENH) after psychosocial education	125
4.3.1	The percentage of students (frequency distribution) scores on AUDIT-1 how often you have a drink containing Alcohol	129

4.3.2	The percentage of students (frequency distribution) scores on AUDIT-2 how many drinks containing alcohol do you have on a typical day when you are drinking	130
4.3.3	The percentages of students (frequency distribution) scores on AUDIT-3 how often do you have 6 or more drinks on 1 occasion?	131
4.3.4	The percentage of students (frequency distribution) scores on AUDIT-4 How often during the past year have you found that you were not able to stop drinking once you had started?	132
4.3.5	The percentage of students (frequency distribution) scores on AUDIT-5 how often during the past year has you failed to do what was normally expected of you because of drinking?	133
4.3.6	The percentage of students (frequency distribution) scores on AUDIT6 How often during the past year have you needed a first drink in the morning to get yourself going after a heavy drinking session?	134
4.3.7	The percentage of students (frequency distribution) scores on AUDIT7- How often during the past year have you had a feeling of guilt or remorse after drinking	135
4.3.8	The percentage of students (frequency distribution) scores on AUDIT8 How often during the past year have you been unable to remember what happened the night before because you had been drinking?	136
4.3.9	The percentage of students (frequency distribution) scores on AUDIT-9. Have you or has someone else been injured as a result of your drinking?	137
4.3.10	The percentage of students (frequency distribution) scores on AUDIT-10 Has a relative, friend, or a doctor or other health care worker been concerned about your drinking or suggested you cut down?	138

4.4.1	Effect of psychosocial education tested by Paired 't' test on each questions of Drinking Motives Questionnaire Revised (DMQR) before and after the psychosocial education	140
4.4.2	Paired difference of scores on Respondents drinking levels on 4 sub scales	143
4.5.1	Effect of intervention tested by Paired t test on Alcohol Use Disorders Identification Test (AUDIT)	145
4.6.1	ANOVA results for the DMQR on its sub scale, based on their socio-demographic variable 'age' before and after psychosocial education	147
4.6.2	ANOVA Results for the DMQR on its sub scale, based on their socio-demographic variable 'Year' before and after psychosocial education	148
4.6.3	ANOVA results for the DMQR on its sub scale, based on their socio-demographic variable course before and after psychosocial education	149
4.6.4	ANOVA results for the DMQR on its sub scale, based on their socio-demographic variable 'staying with the family or not' before and after psychosocial education	150
4.6.5	ANOVA results for the DMQR on its sub scale, based on their socio-demographic variable 'type of family' before and after psychosocial education	152
4.7.1	ANOVA results for AUDIT based on their socio-demographic variables age, year, course, staying with family or not, type of family before and after psychosocial education	153

4. 8.1	Chi -Square test results for the sub scales of the drinking motives before and after psychosocial education, based on their socio-demographic variables	157
4.9.1	Chi -Square test results for the AUDIT before and after psychosocial education, based on their socio-demographic variables	160
4.11.1	Percentage of drinking levels of respondents on sub scale coping motives (COP) of the DMQR before psychosocial education	164
4.11.2	Percentage of drinking levels of respondents on sub scale coping motives (COP) of the DMQR after psychosocial education	166
4.11.3	Percentage of drinking levels of respondents on sub scale conformity motives (CON) of the DMQR before psychosocial education	167
4.11.4	Percentage of drinking levels of respondents on sub scale conformity motives (CON) of the DMQR after psychosocial education	168
4.11.5	Percentage of drinking levels of respondents on sub scale social motives (SOC) of the DMQR before psychosocial education	169
4.11.6	Percentage of drinking levels of respondents on sub scale social motives (SOC) of the DMQR after psychosocial education	170
4.11.7	Percentage of drinking levels of respondents on sub scale enhancement motives (ENH) of the DMQR before psychosocial education	172
4.11.8	Percentage of drinking levels of respondents on sub scale enhancement motives (ENH) of the DMQR after psychosocial education	173
4.12	Percentage score on drinking levels in conformity (CON) motives by Year of graduate study before & after psychosocial education	174

4.13.1	Percentage of drinking levels of respondents on AUDIT -1 how often you have a drink containing alcohol before and after psychosocial education	175
4.13.2	Percentage of drinking levels of respondents on AUDIT-2 how many drinks containing alcohol do you have on a typical day when you are drinking before and after education	176
4.13.3	Percentage of drinking levels of respondents on AUDIT-3 how often do you have 6 or more drinks on 1 occasion before and after education?	178
4.13.4	Percentage of drinking levels of respondents on AUDIT-4 how often during the past year have you found that you were not able to stop drinking once you had started? Before and after education	179
4.13.5	Percentage of drinking levels of respondents on AUDIT-5 how often during the past year have you failed to do what was normally expected of you because of drinking? Before and after education	180
