

LIST OF TABLES

Table No.	Title	Page No.
1.	The locations of different agro climatic zones of Tamil Nadu and respective crops	
2.	List of rice entries screened for resistance against rice leaf mite, <i>O.oryzae</i>	
3.	List of tapioca entries screened for resistance against tapioca mite, <i>T.urticae</i>	
4.	Relative abundance of phytophagous and predatory mite fauna in north zone of Tamil Nadu	
5.	Diversity indices of phytophagous and predatory mite fauna in north zone of Tamil Nadu	
6.	Relative abundance of phytophagous and predatory mite fauna in west zone of Tamil Nadu	
7.	Diversity indices of phytophagous and predatory mite fauna in west zone of Tamil Nadu	
8.	Relative abundance of phytophagous and predatory mite fauna in Cauvery delta zone of Tamil Nadu	
9.	Diversity indices of phytophagous and predatory mite fauna in Cauvery delta zone of Tamil Nadu	
10.	Relative abundance of phytophagous and predatory mite fauna in south zone of Tamil Nadu	
11.	Diversity indices of phytophagous and predatory mite fauna in south zone of Tamil Nadu	
12.	Relative abundance of phytophagous and predatory mite fauna in hilly zone of Tamil Nadu	
13.	Diversity indices of phytophagous and predatory mite fauna in hilly zone of Tamil Nadu	
14.	Seasonal incidence and population dynamics of rice, <i>Oligonychus oryzae</i> on rice (March 2017 to September 2017)	

Table No.	Title	Page No.
15.	Influence of weather parameters on mite population on rice	
16.	Seasonal incidence and population dynamics of tapioca mite, <i>Tetranychus urticae</i> on tapioca (February 2014 to November 2014)	
17.	Influence of weather parameters on mite population on tapioca	
18.	Mean rice mite, <i>O. oryzae</i> population and damage rating of different rice varieties in pot culture screening (Jane 2017 to March 2017)	
19.	Mean rice mite, <i>O. oryzae</i> population and damage rating of different rice varieties under field screening (April 2017 to June 2017)	
20.	Mean tapioca mite, <i>T. urticae</i> population and damage rating of different tapioca varieties in glasshouse screening (November 2014 to February 2015)	
21.	Mean tapioca mite, <i>T. urticae</i> population and damage rating of different tapioca varieties under field screening (February 2015 to July 2015)	
22.	Effect of rice varieties on fecundity, incubation period, hatchability and oviposition period of <i>O. oryzae</i>	
23.	Developmental period of <i>O. oryzae</i> on different rice varieties	
24.	Effect of tapioca varieties on fecundity, incubation period, hatchability and oviposition period of <i>T. urticae</i>	
25.	Developmental period of <i>T. urticae</i> on different tapioca varieties	
26.	Moisture, chlorophyll a, chlorophyll b, total chlorophyll contents of healthy and <i>O. oryzae</i> infested leaves of rice entries	
27.	Total carbohydrate, reducing sugar, protein, amino acid, phenol and tannin contents of healthy and <i>O. oryzae</i> infested leaves of rice entries	
28.	Major and minor nutrient content of healthy and <i>O. oryzae</i> infested leaves of rice entries	
29.	Peroxidase activity in healthy and infested leaves of selected rice entries	

Table No.	Title	Page No.
30.	Polyphenol oxidase activity in healthy and infested leaves of selected rice entries	
31.	Phenylalanine ammonia lyase in healthy and infested leaves of selected rice entries	
32.	Moisture, chlorophyll a, chlorophyll b, total chlorophyll contents of healthy and <i>T. urticae</i> infested leaves of tapioca entries	
33.	Total carbohydrate, reducing sugar, protein, amino acid, phenol and tannin contents of healthy and <i>T. urticae</i> infested leaves of tapioca entries	
34.	Major and minor nutrient content of healthy and <i>T. urticae</i> infested leaves of tapioca entries	
35.	Peroxidase activity in healthy and infested leaves of selected tapioca entries	
36.	Polyphenol oxidase activity in healthy and infested leaves of selected tapioca entries	
37.	Phenylalanine ammonia lyase in healthy and infested leaves of selected tapioca entries	
38.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>O. oryzae</i> on rice - Field Trial I – spray – I (March 2017 – June 2017)	
39.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>O. oryzae</i> on rice - Field Trial I – spray – II (March 2017 – June 2017)	
40.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>O. oryzae</i> on the yield of rice - Field Trial -I (March 2017 – June 2017)	
41.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>O. oryzae</i> on rice - Field Trial II – spray – I (August 2017 to November 2017)	
42.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>O. oryzae</i> on rice - Field Trial II – spray – II (August 2017 to November 2017)	

Table No.	Title	Page No.
43.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>O. oryzae</i> on the yield of rice - Field Trial -II (August 2017 to November 2017)	
44.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>T.urticae</i> on tapioca - Field trial I – spray – I (February 2014 – November 2014)	
45.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>T.urticae</i> on tapioca - Field trial I – spray – II (February 2014 – November 2014)	
46.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>T.urticae</i> on the yield of tapioca - Field trial I (February 2014 – November 2014)	
47.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>T.urticae</i> on tapioca - Field trial II – spray – I (January 2016 – October 2016)	
48.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>T.urticae</i> on tapioca - Field trial II – spray – II (January 2016 – October 2016)	
49.	Evaluation of botanical, acaricides, entomopathogenic fungi and mineral oil against <i>T.urticae</i> on the yield of tapioca - Field trial-II (January 2016 – October 2016)	

LIST OF PLATES

Plate No.	Title	Page No
1.	Pot culture screening of rice entries under glasshouse condition	
2.	Field screening of rice entries	
3.	Screening of tapioca entries under glasshouse condition	
4.	Screening of tapioca entries under field condition	
5.	Different life stages of <i>O. oryzae</i> on rice	
6.	Different life stages of <i>T. urticae</i> on tapioca	
7.	Management of rice leaf mite, <i>O. oryzae</i> on rice (First season)	
8.	Management of rice leaf mite, <i>O. oryzae</i> on rice (Second season)	
9.	Management of two spotted spider mite, <i>T. urticae</i> on tapioca (First season)	
10.	Management of two spotted spider mite, <i>T. urticae</i> on tapioca (Second season)	

LIST OF FIGURES

Figure No.	Title	Page No.
1.	Relative abundance of phytophagous and predatory mite fauna in north zone	
2.	Relative abundance of phytophagous and predatory mite fauna in west zone	
3.	Relative abundance of phytophagous and predatory mite fauna in Cauvery delta zone	
4.	Relative abundance of phytophagous and predatory mite fauna in south zone	
5.	Relative abundance of phytophagous and predatory mite fauna in hilly zone	
6.	Seasonal incidence and population dynamics of <i>O. oryzae</i> in rice ecosystem	
7.	Seasonal incidence and population dynamics of tapioca mite, <i>T. urticae</i> in tapioca ecosystem	
8.	Evaluation of botanical, acaricides, EPF and mineral oils against <i>O. oryzae</i> on rice ecosystem (First season)	
9.	Evaluation of botanical, acaricides, EPF and mineral oils against <i>O. oryzae</i> on rice ecosystem (Second season)	
10.	Evaluation of botanical, acaricides, EPF and mineral oils against <i>T. urticae</i> on tapioca ecosystem (First season)	
11.	Evaluation of botanical, acaricides, EPF and mineral oils against <i>T. urticae</i> on tapioca ecosystem (Second season)
