

List of Tables

3.1	Geometrical parameters of 2-element DGS MIMO antenna	22
3.2	Comparative study of proposed 2-element DGS MIMO antenna with existing antenna	29
3.3	Geometrical parameters of proposed 3-element MIMO antenna	32
3.4	Geometrical parameters of proposed for 3-element MIMO antenna	39
4.1	Dimensions of spanner shape single element antenna	42
4.2	Comparison of antenna maximum gain and ECC among proposed antenna and existing antenna	47
4.3	Dimensions of 4-element MIMO antenna	48
4.4	Comparison between 4-element antenna characteristics with existing work	54
4.5	Comparative study of different configurations of PCMA with and without DGS based on characteristics	56
4.6	Dimensions of 2-element MIMO antenna using DGS and parasitic elements	57
4.7	Geometrical parameters of proposed for 2-element MIMO antenna	64
5.1	Dimensions of 2-element band notched MIMO antenna	66
5.2	Comparative study of proposed antenna with existing antenna from literature	74
6.1	Dimensions of 3-element slotted MIMO antenna	77
7.1	Dimensions of 6-element MIMO antenna	88
7.2	Geometrical parameters of proposed for 3-element MIMO antenna	96
8.1	Summary of results for proposed structures	102
