LIST OF FIGURES

Fig 1: Aerial part of *P. oleracea* L

Fig 2: Soxhlet extraction apparatus

Fig 3a & b: Showing fluorescence study under visible light

Fig 4: Antibacterial activity of various extracts of *P. oleracea* L

Fig 5: Anti-implantation activity of various extracts of *P. oleracea* L in rats

Fig 6: Abortifecient activity of various extracts of *P. oleracea* L in rats

Fig 7: Quantitative estimation of flavonoids

Fig 8: Colored reaction of flavonoids and chromogenic system

Fig 9: Separation of flavonoids by HPLC

Fig 10: Different phases of estrous cycle in estrogenic activity

Fig 11a & b: Histology of ovary and uterus in anti-ovulatory activity

Fig 12: Histology of uterus in estrogenic activity

Fig 13 a & b: Showing Effect flavonoid on Germination and growth of Green gram

Fig 14: Micro plate showing evaluation of Cytotoxicity by XTT assay

Fig 15: Showing evaluation of Gene Toxicity by comet assay

Fig 16: FT-IR spectrum of isolated compound Apigenin from *P. oleracea* L

Fig 17: NMR spectrum of isolated compound Apigenin from *P. oleracea* L

Fig 18: LC-MS spectrum of isolated compound Apigenin from *P. oleracea* L
