

INDEX

Serial No.	Contents	Page no.
Chapter I: INTRODUCTION TO CATEGORIES OF DRUGS SELECTED, HPLC METHOD DEVELOPMENT AND VALIDATION		
1.1	Introduction to drug and pharmaceutical formulation	1
1.2	Categories of drugs selected in the present investigation	2
1.3	Analysis and analytical methods	6
1.4	Development and optimization of HPLC method	7
1.5	Method validation	16
	References	27
Chapter II: RP-HPLC ESTIMATION OF ALOGLIPTIN AND PIOGLITAZONE SIMULTANEOUSLY IN COMBINED TABLET DOSAGE FORMS		
2.1	Physical, chemical and pharmacological properties of the drugs	35
2.2	Review of literature	37
2.3	Materials and methods	42
2.4	Results and discussion	46
2.5	Advantages of the proposed method	61
2.6	Summary and conclusion	63
	References	64

Serial No.	Contents	Page no.
Chapter III: RP-HPLC METHOD FOR THE SIMULTANEOUS ASSAY OF METFORMIN AND BENFOTIAMINE: DEVELOPMENT AND VALIDATION		
3.1	Physical, chemical and pharmacological properties of the drugs	76
3.2	Review of literature	78
3.3	Materials and methods	81
3.4	Results and discussion	84
3.5	Comparison with the reported methods	96
3.6	Summary and conclusion	99
	References	100
Chapter IV: DEVELOPMENT OF STABILITY INDICATING RP-HPLC METHOD FOR THE SIMULTANEOUS ESTIMATION OF DAPAGLIFLOZIN AND METFORMIN		
4.1	Physical, chemical and pharmacological properties of the drugs	110
4.2	Review of literature	111
4.3	Materials and methods	115
4.4	Results and discussion	120
4.5	Comparison among the proposed RP-HPLC method and other reported methods	135
4.6	Summary and conclusion	138
	References	139

Chapter V: STABILITY INDICATING RP-HPLC METHOD FOR THE SIMULTANEOUS QUANTIFICATION OF QUINAPRIL AND HYDROCHLOROTHIAZIDE IN TABLET DOSAGE FORMS		
5.1	Physical, chemical and pharmacological properties of the drugs	149
5.2	Review of literature	151
5.3	Materials and methods	158
5.4	Results and discussion	161
5.5	Comparison studies	179
5.6	Summary and conclusion	184
	References	185
Chapter VI: DETERMINATION OF ASPIRIN AND PRAVASTATIN IN PHARMACEUTICAL DOSAGE FORMS USING STABILITY INDICATING RP-HPLC METHOD		
6.1	Physical, chemical and pharmacological properties of the drugs	197
6.2	Review of literature	199
6.3	Materials and methods	201
6.4	Results and discussion	205
6.5	Comparison of the proposed method with the reported methods	221
6.6	Summary and conclusion	224
	References	225
Chapter VII: SUMMARY AND CONCLUSION		234
PUBLICATIONS		247
