Acknowledgement

This thesis is the substantial achievement of my journey in obtaining my Ph.D. I have not traveled in a vacuum in this journey. This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my well wishers, my friends and colleagues. It is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.

I owe a debt of gratitude to my research supervisor and guide Dr. K. Veluraja, Professor and Head, Department of Physics, Manonmaniam Sundaranar University, Tirunelveli for his valuable guidance, meticulous supervision, kind and constant encouragement throughout the period of my research work. I also thank him for extending me a warm welcome, support and true help for the progression and smoothness of the research program. I am deeply grateful to him for initiating me in the field of complex carbohydrates and protein-carbohydrate interaction.

The support, friendship and encouragement by our staffs Dr. D. Pathinettam Padiyan, Dr. K. Ganesan, Dr. T. R. Rajasekaran, Dr. B. Sundarakannan and Dr. K. Mohanraj are invaluable for which I am extremely grateful. I thankfully remember and dedicate my genuine thanks to Professor N. Arunachalam for his kind encouragement.
It is a pleasure to thank my fellow research scholars, Ms. S. Arunavathi, Mr. P. Parasuraman, Mr. J. Fermin Angelo Selvin, Mr. V. Murugan and Mrs. A. Jasmine for their support, timely help and kind cooperation in various stages of this work. I thankfully remember Mrs. A. N. Seethalakshmi for her kind help during the initial stage of my research. I also thank all my friends at Department of Physics, Manonmaniam Sundaranar University.

My lovable thanks are to my husband Mr. K. Sureshkumar, who had to bear a heavy load of responsibility for bringing this project a successful one and for his endless moral support during the time of this research work. I dedicate my heartfelt thanks to my beloved daughter S. Harini, for her sacrifice to continue my research work. For the unwavering moral and emotional support, throughout this research work, I thank my parents, my brother, S. P. Vijay, all my in-laws, relatives and friends.

The financial assistance received from Rajiv Gandhi National Fellowship for both JRF, for three years and SRF for two years is gratefully acknowledged. The authors thank BTISnet facility, DBT, Government of India for provision of facility to do the Molecular Dynamics Simulation. The use of Bioinformatics centre in the department of physics, Manonmaniam Sundaranar University (BT/Bi/25/001/2006), funded by DBT is greatly acknowledged.

Above all, utmost appreciation to the Almighty God for the divine intervention in this academic endeavor.

Mrs. S. Venateshwari
