

LIST OF TABLES

TABLE NO.	TITLES	PAGES
Table 3.6.1	Variables and their Measurements	46
Table 3.7.1	Norms and Interpretation of Occupational Stress Index (OSI)	48
Table 3.7.2	Reliability Index of the Occupational Stress Index (OSI)	49
Table 3.7.3	Reliability Index of the Efficiency, Effectiveness and Performance Scale (EEPS)	51
Table 3.7.4	Scoring Key for Ergonomic Stress Index	53
Table 3.7.5	Reliability Estimate of the Ergonomic Stress Index (ESI)	54
Table 3.7.6	Norms for Interpretation of Ergonomic Stress	55
Table 3.7.7	Scoring Key for Stress Management Scale	56
Table 3.7.8	Positively and Negatively Items for Stress Management Scale	57
Table 3.7.9	Reliability Estimate of the Stress Management Scale (SMS)	58
Table 3.7.10	Norms for Interpretation of Z- Score and Stress Management Level	60
Table 3.7.11	Constituent of Coping Behaviors of Categories of Coping Strategies Scale	61
Table 3.7.12	Category of the Item of Scale	62
Table 3.7.13	Validity of Coping Strategy Scale	63
Table 3.7.14	Concurrent Validity of Coping Strategy Scale	63
Table 3.7.15	Scoring Key for Coping Strategy Scale	64
Table 3.7.16	Scoring Key for Level of Coping	65
Table 3.7.17	Norms for Raw Score to Percentile Conversion	65
Table 3.7.18	Reliability Estimate of the Customer Satisfaction Scale (CSS)	66
Table 4.1.1	Frequency and Percentage Distribution of Socio-Demographic Profile of Respondents	70

TABLE NO.	TITLES	PAGES
Table 4.2.1	Frequency and Percentage Distribution of Bank Employees on Levels of Occupational Stress (Bank Wise and Gender Wise)	77
Table 4.2.2	Mean, Standard Deviation, t-values and p-values of Subscale Data on Level of Occupational Stress	91
Table 4.2.3	Mean, Standard Deviation, t-values and p-values on Level of Occupational Stress Across Gender in Public and Private Bank Employees	95
Table 4.2.4	Mean, Standard Deviation, t-values and p-values on Level of Occupational Stress	99
Table 4.2.3 (a)	Association between Occupational Stress and Age	102
Table 4.2.3 (b)	Association between Occupational Stress and Educational Qualification	103
Table 4.2.3 (c)	Association between Occupational Stress and Marital Status	104
Table 4.2.3 (d)	Association between Occupational Stress and Work Experience in Completed Years	105
Table 4.2.3 (e)	Association between Occupational Stress and Income	105
Table 4.2.3 (f)	Association between Occupational Stress and Working Hours	106
Table 4.2.3 (g)	Association between Occupational Stress and Selected Demographic Variables	107
Table 4.3.1	Frequency and Percentage of Consequences of Occupational Stress among Bank Employees	108
Table 4.3.2	Mean, Standard Deviation, t-values and p-values of Consequences of Occupational Stress Scores of Bank Type Wise and Gender Wise	113
Table Table 4.3.3	Mean, Standard Deviation, t-values and p-values of Consequences of Occupational Stress Scores among Bank Employees	115
Table 4.3.4	Mean, Standard Deviation, t-values and p-values of Consequences of Occupational Stress	118
Table 4.4.1 (a)	Overall (Private and Public Banks n=400)	120
Table 4.4.1 (b)	Public Bank Females (n=100)	121

TABLE NO.	TITLES	PAGES
Table 4.4.1 (c)	Private Bank Females (n=100)	121
Table 4.4.1 (d)	Public Bank Males (n=100)	122
Table 4.4.1 (e)	Private Bank Males (n=100)	122
Table 4.4.1 (f)	Males (Private and Public Banks n=200)	123
Table 4.4.1 (g)	Females (Private and Public Banks n=200)	124
Table 4.5.1	Frequency and Percentage of Public and Private Bank Employees on Ergonomic Risk Factors	126
Table 4.5.2	Mean, Standard Deviation, t-value and p-value of Ergonomic Risk Factors among Public and Private Bank Employees	131
Table 4.5.3	Mean, Standard Deviation, t-value and p-value of Ergonomic Risk Factors among Male and Female bank Employees	132
Table 4.5.4	Mean, Standard Deviation, t-value and p-value of Ergonomic Risk Factors among Males of Public and Private Bank	132
Table 4.5.5	Mean, Standard Deviation, t-value and p-value of Ergonomic Risk Factors among Females of Public and Private Bank	133
Table 4.6.1 (a)	Frequency and Percentage of Stress Management Proficiency among Bank Employees	134
Table 4.6.1 (b)	Mean, Standard Deviation, t-value and p-value of Stress Management Proficiency among Public and Private Bank Employees	139
Table 4.6.1 (c)	Mean, Standard Deviation, t-value and p-value of Stress Management Proficiency among Male and Female Bank Employees	140
Table 4.6.1 (d)	Mean, Standard Deviation, t-value and p-value of Stress Management Proficiency among Males of Public and Private Bank Employees	141
Table 4.6.1 (e)	Mean, Standard Deviation, t-value and p-value of Stress Management Proficiency among Females of Public and Private Bank Employees	142
Table 4.6.2 (a)	Frequency and Percentage Distribution of Respondents adopting Different Coping Strategies.	143

TABLE NO.	TITLES	PAGES
Table 4.6.2 (b)	Frequency and Percentage Distribution of Male and Female Respondents adopting Coping Strategies.	146
Table 4.6.2 (c)	Mean, Standard Deviation, t-value and p-values of Coping Strategies Scores of Public and Private Bank Employees	148
Table 4.6.2 (d)	Mean, Standard Deviation, t-values and p-values of Score Obtained on Coping Strategies adopted by Bank Employees.	149
Table 4.6.2 (e)	Mean, Standard Deviation, t-values and p-values of Coping Strategies adopted by Male and Female Bank Employees	150
Table 4.6.2 (f)	Mean, Standard deviation, t-values and p-values of Coping Strategies adopted by Males and Females of Public and Private Bank Employees	151
Table 4.7.1	Relationship between occupational stress and customer satisfaction	153
