1.6. (c) Company Analysis

1.7. Answers Provided by Fundamental Analysis

1.8. Macroeconomic Variables & the Growth of the Market: A Relationship

1.9. Macroeconomic Variables in the Study: An Introduction

1.9. (a) Growth rate of Gross Domestic Product (GDP)

1.9. (b) Industrial Growth Rate

1.9. (c) Agriculture & Monsoons

1.9. (d) Savings and Investment

1.9. (e) Government Budget & Deficit

1.9. (f) Price Level & Inflation

1.9. (g) Interest Rates

1.9. (h) Cash Reserve Ratio

1.9. (i) Balance of Payments

1.9. (j) Foreign Capital Flow (FDI+FII)

1.10. The Barometers of Indian Capital Market

1.10. (a) Sensex

1.10. (b) Nifty

1.11. Objective of the Proposed Research Plan

1.12. Thesis at a Glance
1.13. Objective of the Study

1.14. Some Specific Objectives of The Study

Chapter 2 Economic Analysis and Research Methodology

An Introduction

2.0. Introduction

2.1. Review of Literature

2.2. Forecasting Models in Economic Analysis

2.2. (a) Structural or Cross Sectional Econometric Models

2.2. (b) Time Series Econometric Models

2.2. (c) Structural Time Series Models: A Hybrid

2.3. The Berometer of Indian Capital Market

2.3. (a) Sensex: An Introduction

2.3. (b) Nifty: An Introduction

2.4. Research Design and Methodology

2.4. (a) Target Population in Research Plan

2.4. (b) The Dependent Variable

2.4. (c) The Independent Variable

2.5. Sample and Source of Data

2.6. Statistical Methodology used in Data Analysis

2.6.1. Simple/Multiple Regression Analysis
2.7. Model Building
   2.7. (a) Statistical Terminology
   2.7. (b) The Simple Linear Regression Model
   2.8. Forming Confidence Intervals for The Regression Parameters
   2.9. Relevant Hypothesis Formulation
   2.10. Multiple Regression Model
   2.11. Statistical Analysis
      2.11. (a) Descriptive Measures in Regression Analysis
      2.11. (b) Hypothesis Formulation and Testing
   2.12. Formulating and Testing the Hypotheses
      2.12. (a) Testing the Significance of Population Correlation Coefficient
      2.12. (b) Testing the Significance of the Fitted Regression Model
      2.12. (c) Testing the Statistical Significance of the Slope of Simple Regression Model
   2.13. Type I and Type II Errors and P-Value

Chapter 3 Analysis of Multiple Regression Model with Resembling Macroeconomic Variables
   75–161

   3.0. Introduction
   3.1. Proposed Research Plan
   3.2. Resembling and Diverging Variables
3.3. Analysis of Resembling Macroeconomic Variables

3.3.1. Descriptive and Inferential Measures

3.3.2. Criterion and Conclusion

3.4. Optimizing the Full Multiple Regression Model

3.5. Statistical Analysis and Conclusion

3.6. Steps Involved in Optimizing Multiple Regression Model

3.7. Impact of Macroeconomic Fundamentals on Secondary Market Performance

Chapter 4 Statistical Analysis of Multiple Regression Model

with Diversing Macroeconomic Variables

4.0. Introduction

4.1. Statistical Background

4.1.1. Analysis of the model with Y₁ as dependent variable in I triennium economic block

4.1.2. Analysis of the model with Y₂ as dependent variable in I triennium economic block

4.1.3. Analysis of the model with Y₃ as dependent variable in II triennium economic block

4.1.4. Analysis of the model with Y₄ as dependent variable in II triennium economic block

4.2. Conclusion
Chapter 5  Analyzing Sensitivity and Sustainability of the Regression Models for both the Triennium Economic Blocks Involving Resembling Macroeconomic Variables

5.0. Introduction 206

5.1. Statistical Background 207

5.2. Statistical Analysis of the Multiple Regression Model in Respect of their Sensitivity, Sustainability and Reliability 209

5.3. Statistical Analysis of the Individual Simple Regression Models Involving Resembling Variables only.
   5.3.1. Analysis of Models with $Y_1$ as Dependent Variable 214
   5.3.2. Analysis of Models with $Y_2$ as Dependent Variable 223
   5.3.3. Analysis of Models with $Y_3$ as Dependent Variable 224
   5.3.4. Analysis of Models with $Y_4$ as Dependent Variable 224

5.4. Over-All Conclusion 225

5.5. Optimized Linear Multiple Regression Model and its Properties 226

5.6. Statistical Analysis of the Optimised Models 227

5.7. Analysing Regression Models with Partial Correlation 228
Chapter 6  Analysing Sensitivity and Sustainability of the Regression Models for the Triennium Economic Blocks Involving Diversing Macroeconomic Variables  241–277

6.0.  Introduction  241

6.1.  Statistical Background  243

6.2.  Statistical Analysis of the Multiple Regression Models in Respect of Their Sensitivity, Sustainability and Reliability  244

6.3.  Statistical Analysis of the Individual Simple Regression Models Involving Diverging Variables only

   6.3.1.  Analysis of the Models with $Y_1$ as Dependent Variable  258

   6.3.2.  Analysis of the Models with $Y_2$ as Dependent Variable  258

   6.3.3.  Analysis of the Models with $Y_3$ as Dependent Variable  259

   6.3.4.  Analysis of the Models with $Y_4$ as Dependent Variable  260

6.4.  Over-All Conclusion  260

6.5.  Analysis of Linear Multiple Regression Models Involving diverging Variables Only  262

6.6.  Analysing Regression Models using Partial Correlations  263
### Chapter 7 Summary, Findings, Implications and Problems for Further Investigations
