Acknowledgements

I feel myself fortunate enough that I had the privilege of pursue my research works under the able guidance and supervision of Dr. Diganta Kumar Das, Associate professor Department of Chemistry, Gauhati University. My humble gratitude to Dr. Das Sir is beyond expression. He has always been generous to me in giving time for discussion, offering useful ideas and suitable suggestion in checking the details of the works.

I would like to express my sincere gratitude to Dr. P. J. Das (former HOD, Department of Chemistry, G.U) and Dr. D.C. Deka HOD, Department of Chemistry, G.U for providing necessary facilities in the department of Chemistry.

I would like to offer my gratitude to the University Grants Commission for offering me the opportunity by a grant of RFSMS fellowship which helped me immensely to meet up the expenditures incurred during the works.

A number of learned galaxy very frequently helped and advised me a lot during the period of pursuing my research works. I shall remain ever grateful to them. They are Dr. S.K. Bhattacharjee (G.U), Dr. Rupam Jyoti Sharma (G.U), Dr. J.N. Ganguli (G.U), Dr. B.K. Das (G.U), Dr. Chitrani Medhi. I offer my thanks to Dr C. V. Sastri (IITG) who graciously helped me providing some essential papers related to my works.

I would like to acknowledge CIF, IIT Guwahati, TIFR Mumbai, IIT Kanpur, Guwahati Biotech Park, Guwahati, IASST Guwahati and SAIF, Gauhati University for helping me in various experimental works.

Mr. Babulal Das of IITG deserves thanks for rendering me technical help.

I am also thankful to the nonteaching staff of the Department of Chemistry, Gauhati University who offered tremendous help to augment me in various ways in prosecution of my research.
My labmates Priyaka Goswami, Manas Jyoti Goswami, Sangita Haloi, Pradyunma Goswami, Jitumoni Rajbonshi, Dhanada Sarmah, Kaku Dutta, Partha Biswas and Pranab Jyoti Das assisted me in my research works. I would like to thank them along with Hemoprabha, Sangeeta ba, Rajib, Pallavi ba, Bibul da, Pranita, Priyanka, Subhasis, Arun, Rinu, Jitendra, Bipul and Jupi. I remain grateful to them for their constant support and valuable inspiration. I am particularly grateful to Sourav Bharali and Pankaj Hazarika for their valuable suggestions for analyzing data and giving time for me.

My special thanks are due to all my friends specially Gitanjali and seniors who offered me a lot of informative guidance.

I donot have words to express my humble gratitude to my husband Dr. Bhupen Kumar Sarma who encouraged me a lot to pursue the noble deed and gave mental support during the works.

My parents and parents in laws are also praiseworthy for rendering me all round help during the tenure of my research works. My sister in law Dr. Runjun Devi encouraged me very often and advised me a lot. It is last but not the least that my brother (Baba) and sister (Moni ba) also encouraged me. My daughters Niharika (Niha) and Mandira (Mou) who helped me in the household works and encouraged me with inspiration while I had to be engaged in the laboratory works in the University.

Many helpful persons’ names have not been included here because of lack of space but I do remain grateful to all of them.

At last I would like to recollect all the help and goodwill from many people which helped me tremendously in overcoming the strenuous period during my research work.
