Acknowledgments

I hereby acknowledge the people whose involvement, direct or indirect, helped in this thesis seeing the light of the day.

First and foremost, I wish to express my deep sense of respect and gratitude to my thesis supervisor, Dr. J.K. Kohli, who has been a constant source of inspiration during the course of this thesis work. He has always been patient towards my shortcomings and kept encouraging me to work in a better way. Without his help and support, I would not have been able to write this thesis with my job. During my long association with him, I have learnt a lot of things from his ever pleasing personality and the quality of being a good human being.

I take this opportunity to record my sincere respect and heartiest gratitude to Dr. R. Panda who had kindly agreed to become my co-supervisor. Without his cooperation, it would have been almost impossible for me to continue research work with the job.

I wish to express my sincere gratitude and regards to Professor B.K. Dass, Head, Department of mathematics, University of Delhi, for creating the right kind of atmosphere in the Department which helped me a lot in the completion of the thesis work. I am also indebted to his generous encouragement which always kept my morale high to pursue the present research work.

I am highly grateful to my respected teachers Professor Ajit Iqbal Singh, Professor P.K. Jain, Dr. S.P. Arya who had taught me in pre-Ph.D course work which helped me in my research work. I wish to express my sincere thanks to respected teachers Professor T.B. Singh, Professor Ajay Kumar and Professor R.K. Mohanty for their specific valuable ideas and co-operative attitude.

I would also like to express my deep sense of gratitude and special thanks for the support and
co-operation extended by my senior colleagues Dr. Davinder Singh, Dr. Rajesh Kumar, Dr. A.R. Prasnan and Dr. A.K. Das. I am very thankful to them for their valuable support and encouragement. I am also thankful to Dr. Sachin Vashistha, Jeetendra Aggarwal and Durgesh Kumar for their co-operation and extensive discussions around my work.

I am also thankful to my friends Umesh, Dr. Binod mangang, Neeraj Kohli, Sachin Minocha, Amit Mittal, Basant Mishra, Bibek Barnwal, Ajay Kumar Singh, Sushil Kumar Goswami, Ruchika Ved, Priya Pathak the list goes on and on, for providing me their great company as and when required and mathematical discussion in Central Science Library which were very fruitful for shaping up my ideas and research.

I wish to express my sincere thanks to Shri H. V. Srinivasa Rao, Director, ISSA, DRDO for his continuous encouragement and support for Ph.D. I would also like to convey my thanks to my DRDO Colleagues Gautam Chandra Brahma, Harish Sahu, Lalit Mohan Gupta, Anand Prakash for sharing their bright thoughts which helped me in my research work.

I am grateful to Council of Scientific and Industrial Research (CSIR) for providing me Junior Research Fellowship.

The help and co-operation that I got from the staff of libraries of Central Science Library and Research Floor(Central Reference Library) of University of Delhi have been quite immense.

I don’t have words to express my gratitude to my beloved mother Smt. Haru Devi. It was her unconditional love and affection that helped me to reach at this position. I also express my gratitude to my father Shri D.R. Arya and sisters Hema and Meena for their invaluable support in shaping up my career.

I owe my loving thanks to my wife Gayatri Arya, my sweetest and loving daughter Lakshita. They have suffered a lot due to my research work. Without their encouragement and understanding it would not have been possible for me to finish this work. My special gratitude is
due to mother in law Smt. Madhuri and father in law Shri Shamsher Bahadur for their loving support.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology to those whom I could not mention personally by name.

Chaman Prakash Arya
