NOTE ON REFERENCING AND CITATIONS

This thesis follows the Seventh Edition of The MLA Handbook for Writers of Research Papers (New Delhi: Affiliated East-West Press, 2009) as a guide on referencing and citation. As the book recommends, in cases where two or more works by the same author are cited in the body of the text, the parenthetical reference that follows the quote contains the author’s last name and “the title of the work (if brief) or a shortened version and the relevant page reference.” If the author’s name and the title are mentioned in the text, only the pertinent page number or numbers are mentioned in parenthesis (225). According to this system, the date of publication is not mentioned in a parenthetical reference.

Since I have used unpublished archival materials extensively, manuscripts and typescripts used here are referred to as MS and TS respectively, with an attempt to reproduce the source libraries’ reference protocols as closely as possible while conforming to the MLA recommendations regarding citations.
