</thead>
<tbody>
<tr>
<td>3.1</td>
<td>Psychometric properties of perceived diversity climate questionnaire.</td>
<td>66</td>
</tr>
<tr>
<td>4.1</td>
<td>Mean and standard deviation values for GCM, GCF, RCM and RCF on total perception of diversity climate and its three dimensions.</td>
<td>74</td>
</tr>
<tr>
<td>4.2</td>
<td>Mean and standard deviation values for GCM, GCF, RCM and RCF on total work alienation and its five dimensions.</td>
<td>75</td>
</tr>
<tr>
<td>4.3</td>
<td>Mean and standard deviation values for GCM, GCF, RCM and RCF in total work family conflict and its two dimensions.</td>
<td>77</td>
</tr>
<tr>
<td>4.4</td>
<td>Analysis of calculated variance between gender and category for perceived diversity climate.</td>
<td>79</td>
</tr>
<tr>
<td>4.5</td>
<td>Analysis of calculated variance between gender and category for organizational fairness.</td>
<td>80</td>
</tr>
<tr>
<td>4.6</td>
<td>Analysis of calculated variance between gender and category for organizational inclusiveness.</td>
<td>81</td>
</tr>
<tr>
<td>4.7</td>
<td>Analysis of calculated variance between gender and category for personal diversity value.</td>
<td>82</td>
</tr>
<tr>
<td>4.8</td>
<td>Analysis of calculated variance between gender and category for work alienation.</td>
<td>83</td>
</tr>
<tr>
<td>4.9</td>
<td>Analysis of calculated variance between gender and category for powerlessness.</td>
<td>84</td>
</tr>
<tr>
<td>4.10</td>
<td>Analysis of calculated variance between gender and category for meaninglessness.</td>
<td>85</td>
</tr>
</tbody>
</table>
4.11 Analysis of calculated variance between gender and category for normlessness. 86
4.12 Analysis of calculated variance between gender and category for instrumental work orientation. 87
4.13 Analysis of calculated variance between gender and category for self-evaluative involvement. 88
4.14 Analysis of calculated variance between gender and category for work-family conflict. 89
4.15 Analysis of calculated variance between gender and category for work interference with family. 90
4.16 Analysis of calculated variance between gender and category for family interference with work. 91
4.17 Inter-dimensional correlation of dimensions of perceived diversity climate with dimensions of work family conflict and work alienation among the total sample. 93
4.18 Inter-dimensional correlation of dimensions of work family conflict with dimensions of work alienation among the total sample. 93
4.19 Step wise regression analysis of the impact on work-family conflict (dependent variable) related to independent variables, namely, perceived diversity climate and organisational fairness among GCM. 94
4.20 Step wise regression analysis of the impact on family interference with work (dependent variable) related to independent variables, namely, perceived diversity climate, organisational fairness and personal diversity value among GCM. 95
4.21 Step wise regression analysis of the impact on work-family conflict (dependent variable) related to independent variable, namely, perceived diversity climate among GCF. 95
4.22 Step wise regression analysis of the impact on work-family conflict (dependent variable) related to independent variable, namely, organisational fairness among GCM.

4.23 Step wise regression analysis of the impact on self-evaluative involvement (dependent variable) related to independent variable, namely, personal diversity value among GCM.

4.24 Step wise regression analysis of the impact on work alienation (dependent variable) related to independent variables, namely, perceived diversity climate and personal diversity value among GCF.

4.25 Step wise regression analysis of the impact on powerlessness (dependent variable) related to independent variable, namely, perceived diversity climate among GCF.

4.26 Step wise regression analysis of the impact on instrumental work orientation (dependent variable) related to independent variable, namely, personal diversity value among GCF.

4.27 Step wise regression analysis of the impact on self evaluative involvement (dependent variable) related to independent variable, namely, personal diversity value among GCF.

4.28 Step wise regression analysis of the impact on work alienation (dependent variable) related to independent variable, namely, organisational fairness among RCM.

4.29 Step wise regression analysis of the impact on normlessness (dependent variable) related to independent variable, namely, organisational fairness among RCM.

4.30 Step wise regression analysis of the impact on instrumental work orientation (dependent variable) related to independent variable, namely, organisational inclusiveness among RCF.

4.31 Step wise regression analysis of the impact on work family conflict
(dependent variable) related to independent variable, namely, work alienation among GCM.

4.32 Step wise regression analysis of the impact on work alienation (dependent variable) related to independent variable, namely, work family conflict among GCM.

4.33 Step wise regression analysis of the impact on work family conflict (dependent variable) related to independent variable, namely, work alienation among GCF.

4.34 Step wise regression analysis of the impact on work interference with family conflict (dependent variable) related to independent variable, namely, work alienation among GCF.

4.35 Step wise regression analysis of the impact on family interference with work conflict (dependent variable) related to independent variable, namely, work alienation among GCF.

4.36 Step wise regression analysis of the impact on work family conflict (dependent variable) related to independent variable, namely, work alienation among RCM.

4.37 Step wise regression analysis of the impact on work interference with family conflict (dependent variable) related to independent variables, namely, work alienation and normlessness among RCM.

4.38 Step wise regression analysis of the impact on family interference with work conflict (dependent variable) related to independent variable, namely, work alienation among RCM.

4.39 Responses of all the four groups to open ended question on opinion towards quota system.

4.40 Themes over opinions of RCM towards the quota system.

4.41 Themes over opinions of RCF towards the quota system.
4.42 Common themes over opinions towards the quota system for reserved category employees.

4.43 Themes over opinions of GCM towards the quota system.

4.44 Themes over opinions of GCF towards the quota system.

4.45 Common themes over opinions towards the quota system for general category employees.

4.46 Themes over perceptions of RCM towards diversity climate of their organisation.

4.47 Themes over perceptions of RCF towards diversity climate of their organisation.

4.48 Common themes over perception towards the diversity climate for reserved category employees.

4.49 Themes over perceptions of GCM towards diversity climate of their organisation.

4.50 Themes over perceptions of GCF towards diversity climate of their organisation.

4.51 Common themes over perception towards the diversity climate for general category employees.

4.52 Responses of all the four groups to question 1 of the interview.

4.53 Responses of all the four groups to question 2 of the interview.

4.54 Responses of all the four groups to question 3 of the interview.

4.55 Responses of all the four groups to question 4 of the interview.

4.56 Responses of all the four groups to question 5 of the interview.

4.57 Responses of all the four groups to question 6 of the interview.
