ACKNOWLEDGEMENT

The present study is an attempt for exploring the present scenario of science education in the secondary schools of Tripura. The study was carried out under the expert supervision of Prof. N. B. Biswas, Department of Educational Sciences, Ashutosh Mukherjee School of Education, Assam University, Silchar, Assam. The investigator likes to convey his gratitude to Prof. Biswas for his constant supervision and active guidance without which the study would not have been completed.

The investigator is also thankful to the guide who gave useful suggestions from time to time for the purpose of developing various tools and acted as major source of data; the education officers at the state as well as at district level; inspectors of schools for their kind cooperation. The investigator acknowledges a profound sense of appreciation to the head of the institutions, teaching staff, official staff, laboratory assistant and librarian of the concerned schools of Tripura in performing the execution work of questionnaire.

The investigator takes the opportunity to acknowledge the library-staffs of various libraries at Agartala, Silchar, officials of SCERT office at Agartala, Tripura Board of Secondary Education, and Department of schools education who extended their hands of cooperation for the shake of the present research. During the last four years, the researcher came across a number of persons who though may not directly, however indirectly help the researcher for the present study. The researcher wish to acknowledge all of them from the core of his heart. The researcher also thankfully acknowledges the staff of “Computer Point” and “Jantra Lekha” (printing unit), Agartala, Tripura for computer composing, printing and binding of this thesis. The investigator is also obliged to the authors whose books, journals, papers, magazine etc. are consulted for this work.

Finally, the investigator also likes to express his heartfelt thanks to his better half, Krishna for her patience and bearing with him for neglect of his family responsibility during the entire period of research.

(Rajat Dey)
