LIST OF TABLES

CHAPTER 1
  Table 1.1. Selected Human Chemical Carcinogens
  Table 1.2. Precarcinogens Metabolised by Cytochrome P450
  Table 1.3. Common Adverse Effects of Radiation Therapy
  Table 1.4. Potential Mechanisms of Dietary Chemopreventive Compounds

CHAPTER 2
  Table 2.1. Primer Sequences of Different Genes

CHAPTER 3
  Table 3.1. Comparison of Free Radical Scavenging Activities of Zeaxanthin and meso-Zeaxanthin with Other Antioxidants.
  Table 3.2. Effect of MZ Administration on Antioxidant Systems in Blood
  Table 3.3. Effect of meso-Zeaxanthin Administration on Antioxidant Systems in Liver
  Table 3.4. Effect of MZ on the Production of NO, CRP and Various Proinflammatory Cytokines Produced by LPS-Stimulated Macrophages

CHAPTER 4
  Table 4.1. Antimutagenic Activity of MZ on Mutagenicity Induced by NaN₃ in S.typhimurium Strains TA100, TA102 and TA1535
  Table 4.2. Antimutagenic Activity of MZ on Mutagenicity Induced by NPD in S.typhimurium Strains TA98 and TA100
  Table 4.3. Antimutagenic Activity of MZ on Mutagenicity Induced by MNNG in S.typhimurium Strains TA100 and TA1535
  Table 4.4. Antimutagenic Activity of MZ on Mutagenicity Induced by AAF in S.typhimurium Strains TA98 and TA100 in the Presence of S9 Mix
  Table 4.5. Antimutagenic Activity of MZ on Mutagenicity Induced by Tobacco Extract in S.typhimurium Strain TA102

CHAPTER 5
  Table 5.1. In vitro cytotoxicity of MZ Using DLA and EAC Cells by Trypan Blue Exclusion Method
  Table 5.2. Cytotoxicity of MZ towards L929 Cells by MTT Assay
  Table 5.3. Effect of MZ Administration on the Survival Rate and Life Span of Ascites Tumour Bearing Animals
CHAPTER 6
Table 6.1. Effect of MZ on Survival Rate, Tumour Incidence and Liver Weight of NDEA Induced HCC Harboring Animals (on 29th week)
Table 6.2. Effect of MZ on Serum Parameters during NDEA Induced Hepatic Carcinoma
Table 6.3. Effect of MZ on Liver Parameters during NDEA Induced Hepatic Carcinoma

CHAPTER 7
Table 7.1. Effect of MZ on Haematological Parameters of Cisplatin Treated Mice
Table 7.2. Effect of MZ on Bone Marrow Cellularity and α-Esterase Positive Cells of Cisplatin Treated Mice
Table 7.3. Effect of MZ on Antioxidant Enzymes and GSH in the Cisplatin-Treated Kidney
Table 7.4. Effect of MZ on Oxidative Stress Markers in Cisplatin Treated Kidney
7.5. Effect of MZ on Doxorubicin-Induced ECG Changes
Table 7.6. Effect of MZ on Serum Marker Enzymes during Doxorubicin Induced Cardiotoxicity
Table 7.7. Effect of MZ on Antioxidant Enzymes and GSH during Doxorubicin Induced Cardiotoxicity
Table 7.8. Effect of MZ on Oxidative Stress Markers in the Heart Tissue During Doxorubicin Induced Toxicity.

CHAPTER 8
Table 8.1. Effect of MZ on Levels of Antioxidant Enzymes and GSH in the Liver of Irradiated Mice
Table 8.2. Effect of MZ Administration on Levels of Antioxidant Enzyme and GSH in the Intestinal Mucosa of Irradiated Mice
Table 8.3. Effect of MZ Administration on Radiation Induced Micronuclei Formation in Mice Bone Marrow Cells
Table 8.4. Effect of MZ Administration on Radiation Induced Chromosomal Aberrations in Mice Bone Marrow Cells
Table 8.5. Effect of MZ on Radiation Induced DNA strand Breaks in Mouse Bone Marrow Cells
CHAPTER 9

Table 9.1. Effect of MZ on Serum Marker Enzymes and Bilirubin Level during Paracetamol Induced Hepatotoxicity
Table 9.2. Effect of MZ on Antioxidant Enzymes and GSH Level in the Liver during Paracetamol Induced Hepatotoxicity
Table 9.3. Effect of MZ on Various Oxidative Stress Markers in Paracetamol Treated Liver
Table 9.4. Effect of MZ on Serum Marker Enzymes and Bilirubin Level during CCl₄ Induced Hepatotoxicity
Table 9.5. Effect of MZ on Antioxidant Enzymes and GSH Level in the Liver during CCl₄ Induced Hepatotoxicity
Table 9.6. Effect of MZ on Serum Marker Enzymes and Bilirubin Level during Ethanol Induced Hepatotoxicity
Table 9.7. Effect of MZ on Antioxidant Enzymes and GSH Level in the Liver during Ethanol Induced Hepatotoxicity
