5.8 Summary of the analysis of Pre-test and Post–test scores of pupils in Experimental group I and control group on the achievement in Social Science for whole sample.

5.9 Summary of the analysis of Co-variance of Pre-test and Post–test scores of pupils in experimental group I and control group on the achievement in Social Science for whole sample.

5.10 Data of adjusted means for the post-test scores of pupils in experimental group I and control group on the achievement in Social Science for whole sample.

5.11 Summary of the analysis of Pre-test and Post–test scores of pupils in Experimental group I and control group on the achievement in Social Science with regard to Male teachers.

5.12 Summary of the analysis of Co-variance of Pre-test and Post–test scores of pupils in experimental group I and control group on the Achievement in Social Science with regard to Male teachers.

5.13 Data of adjusted means for the post-test scores of pupils in experimental group I and control group on the achievement in Social Science with regard to Male teachers.

5.14 Summary of the analysis of Pre-test and Post–test scores of pupils in Experimental group I and control group on the achievement in Social Science with regard to Female teachers.

5.15 Summary of the analysis of Co-variance of Pre-test and Post–
test scores of pupils in experimental group I and control group on
the Achievement in Social Science with regard to Female
teachers.

5.16 Data of adjusted means for the post-test scores of pupils in
experimental group I and control group on the achievement in
Social Science with regard to Female teachers

5.17 Summary of the analysis of Pre-test and Post-test scores of
pupils in Experimental group I and control group on the
achievement in Social Science with regard to Rural School

5.18 Summary of the analysis of Co-variance of Pre-test and Post-
test scores of pupils in experimental group I and control group
on the achievement in Social Science with regard to Rural Schools

5.19 Data of adjusted means for the post-test scores of pupils in
experimental group I and control group on the achievement in
Social Science with regard to Rural Schools

5.20 Summary of the analysis of Pre-test and Post-test scores of
pupils in Experimental group I and control group on the
achievement in Social Science with regard to Urban schools

5.21 Summary of the analysis of Co-variance of Pre-test and Post-
test scores of pupils in experimental group I and control group
on the achievement in Social Science with regard to Urban schools

5.22 Data of adjusted means for the post-test scores of pupils in experimental group I and control group on the achievement in Social Science with regard to Urban schools

5.23 Mean and standard deviation of the Pre-test scores of experimental group I and control group with regard to types of management

5.24 Mean and standard deviation of the Post-test scores of experimental group I and control group with regard to types of management

5.25 Summary of the analysis of Pre-test and Post – test scores of pupils in Experimental group II and control group on the achievement in Social Science for whole sample.

5.26 Summary of the analysis of Co-variance of Pre-test and Post – test scores of pupils in experimental group II and control group on the achievement in Social Science for whole sample

5.27 Data of adjusted means for the post-test scores of pupils in experimental group II and control group on the achievement in Social Science for whole sample.

5.28 Summary of the analysis of Pre-test and Post – test scores of pupils in Experimental group II and control group on the achievement in Social Science with regard to Male teachers.
5.29 Summary of the analysis of Co-variance of Pre-test and Post – test scores of pupils in experimental group II and control group on the Achievement in Social Science with regard to Male teachers.

5.30 Data of adjusted means for the post-test scores of pupils in experimental group II and control group on the achievement in Social Science with regard to Male teachers.

5.31 Summary of the analysis of Pre-test and Post –test scores of pupils in Experimental group II and control group on the achievement in Social Science with regard to Female teachers.

5.32 Summary of the analysis of Co-variance of Pre-test and Post –test scores of pupils in experimental group II and control group on the Achievement in Social Science with regard to Female teachers.

5.33 Data of adjusted means for the post-test scores of pupils in experimental group II and control group on the achievement in Social Science with regard to Female teachers.

5.34 Summary of the analysis of Pre-test and Post –test scores of pupils in Experimental group II and control group on the achievement in Social Science with regard to Rural School

5.35 Summary of the analysis of Co-variance of Pre-test and Post –
test scores of pupils in experimental group II and control group on the achievement in Social Science with regard to Rural Schools

5.36 Data of adjusted means for the post-test scores of pupils in experimental group II and control group on the achievement in Social Science with regard to Rural Schools

5.37 Summary of the analysis of Pre-test and Post –test scores of pupils in Experimental group II and control group on the achievement in Social Science with regard to Urban schools

5.38 Summary of the analysis of Co-variance of Pre-test and Post–test scores of pupils in experimental group II and control group on the achievement in Social Science with regard to Urban schools

5.39 Data of adjusted means for the post-test scores of pupils in experimental group II and control group on the achievement in Social Science with regard to Urban schools

5.40 Mean and standard deviation of the Pre-test scores of experimental group II and control group with regard to types of management

5.41 Mean and standard deviation of the Post-test scores of experimental group II and control group with regard to types of management

5.42 Summary of the analysis of Pre-test and Post –test scores of
pupils in Experimental group III and control group on the
achievement in Social Science for whole sample.

5.43 Summary of the analysis of Co-variance of Pre-test and Post –
test scores of pupils in experimental group III and control group
on the achievement in Social Science for whole sample.

5.44 Data of adjusted means for the post-test scores of pupils in
experimental group III and control group on the achievement in
Social Science for whole sample.

5.45 Summary of the analysis of Pre-test and Post – test scores of
pupils in Experimental group III and control group on the
achievement in Social Science with regard to Male teachers.

5.46 Summary of the analysis of Co-variance of Pre-test and Post –
test scores of pupils in experimental group III and control group
on the Achievement in Social Science with regard to Male
teachers.

5.47 Data of adjusted means for the post-test scores of pupils in
experimental group III and control group on the achievement in
Social Science with regard to Male teachers.

5.48 Summary of the analysis of Pre-test and Post –test scores of
pupils in Experimental group III and control group on the
achievement in Social Science with regard to Female teachers.
5.49 Summary of the analysis of Co-variance of Pre-test and Post –test scores of pupils in experimental group III and control group on the achievement in Social Science with regard to Female teachers.

5.50 Data of adjusted means for the post-test scores of pupils in experimental group III and control group on the achievement in Social Science with regard to Female teachers.

5.51 Summary of the analysis of Pre-test and Post –test scores of pupils in Experimental group III and control group on the achievement in Social Science with regard to Rural Schools.

5.52 Summary of the analysis of Co-variance of Pre-test and Post –test scores of pupils in experimental group III and control group on the achievement in Social Science with regard to Rural Schools.

5.53 Data of adjusted means for the post-test scores of pupils in experimental group III and control group on the achievement in Social Science with regard to Rural Schools.

5.54 Summary of the analysis of Pre-test and Post –test scores of pupils in Experimental group III and control group on the achievement in Social Science with regard to Urban schools.

5.55 Summary of the analysis of Co-variance of Pre-test and Post –test scores of pupils in experimental group III and control group.
on the achievement in Social Science with regard to Urban schools

5.56 Data of adjusted means for the post-test scores of pupils in experimental group III and control group on the achievement in Social Science with regard to Urban schools

5.57 Mean and standard deviation of the Pre-test scores of experimental group III and control group with regard to types of management

5.58 Mean and standard deviation of the Post-test scores of experimental group III and control group with regard to types of management

5.59 Summary of the analysis of Pre-test and Post –test scores of pupils in Experimental group IV and control group on the achievement in Social Science for whole sample.

5.60 Summary of the analysis of Co-variance of Pre-test and Post –test scores of pupils in experimental group IV and control group on the achievement in Social Science for whole sample

5.61 Data of adjusted means for the post-test scores of pupils in experimental group IV and control group on the achievement in Social Science for whole sample.

5.62 Summary of the analysis of Pre-test and Post–test scores of pupils in Experimental group IV and control group on the achievement in Social Science with regard to Male teachers.
Summary of the analysis of Co-variance of Pre-test and Post–test scores of pupils in experimental group IV and control group on the Achievement in Social Science with regard to Male teachers.

Data of adjusted means for the post-test scores of pupils in experimental group IV and control group on the achievement in Social Science with regard to Male teachers.

Summary of the analysis of Pre-test and Post–test scores of pupils in Experimental group IV and control group on the achievement in Social Science with regard to Female teachers.

Summary of the analysis of Co-variance of Pre-test and Post–test scores of pupils in experimental group IV and control group on the Achievement in Social Science with regard to Female teachers.

Data of adjusted means for the post-test scores of pupils in experimental group IV and control group on the achievement in Social Science with regard to Female teachers.

Summary of the analysis of Pre-test and Post–test scores of pupils in Experimental group IV and control group on the achievement in Social Science with regard to Rural School.

Summary of the analysis of Co-variance of Pre-test and Post–test scores of pupils in experimental group IV and control group
on the achievement in Social Science with regard to Rural Schools

5.70 Data of adjusted means for the post-test scores of pupils in experimental group IV and control group on the achievement in Social Science with regard to Rural Schools

5.71 Summary of the analysis of Pre-test and Post–test scores of pupils in Experimental group IV and control group on the achievement in Social Science with regard to Urban schools

5.72 Summary of the analysis of Co-variance of Pre-test and Post–test scores of pupils in experimental group IV and control group on the achievement in Social Science with regard to Urban schools

5.73 Data of adjusted means for the post-test scores of pupils in experimental group IV and control group on the achievement in Social Science with regard to Urban schools

5.74 Mean and standard deviation of the Pre-test scores of experimental group IV and control group with regard to type of management

5.75 Mean and standard deviation of the Post-test scores of experimental group IV and control group with regard to type of management
5.76 Consolidated Post –Test Mean Scores of Experimental group I,II,III,IV and Control Group

5.77 Data and Result of the Participant Observation Schedule based on SCAMPER Technique for Total and Sub Samples

5.78 Data and Result of the Participant Observation Schedule based on SWOT Analysis for Total and Sub Samples.

5.79 Data and Result of the Participant Observation Schedule based on Brain Based Learning for Total and Sub Sample

5.80 Data and Result of the Participant Observation Schedule based on Mind Mapping for Total and Sub Sample

5.81 Data and Result of the Strategy Evaluation Proforma based on SCAMPER Technique for Total and Sub Samples

5.82 Data and Result of the Strategy Evaluation Proforma based on SWOT analysis for Total and Sub Samples.

5.83 Data and Result of the Strategy evaluation Proforma based on Brain Based Learning for Total and Sub Sample

5.84 Data and Result of the Strategy Evaluation Proforma based Mind Mapping for Total and Sub Samples.
