Bibliography
BIBLIOGRAPHY

The bibliography is confined to Persian Manuscripts, documents, books, and articles actually cited in the thesis. In addition to these sources, much material has been explored but found to contain little information relevant to the present study has, therefore, been excluded. For abbreviations used in the thesis see the separate list of abbreviations. All Persian sources (unpublished and published), Sanskrit works (translation) and European sources are arranged in a chronological order while modern works and articles are alphabetically arranged.
