

CONTENTS

	Page No.	
Chapter 1: Introduction		
1.01	Natural Products Chemistry	1
1.02	Natural products Based Drugs	1-4
1.03	FDA Approved drugs	4-5
1.04	Oxidative stress	5-9
1.05	Inflammation	10-13
1.06	Importance of anti-oxidants and anti-inflammatory	13-14
1.07	A brief discussion on anti-inflammatory herbs	15-20
1.08	References	21-31
 Chapter 2: Phytochemical analysis of <i>Chromolaena odorata</i>		
2.01	Introduction	32-33
2.02	Review of literature of <i>Chromolaena odorata</i>	33-45
2.03	Reported on biological activities of <i>Chromolaena odorata</i>	45-46
2.04	Isolation and structural elucidation of <i>Chromolaena odorata</i>	46-48
2.05	Biological activities	48-52
2.06	Spectral data	53-56
2.07	Discussion	57-74
2.08	Conclusion	74
2.09	Spectra of Isolated compounds	75-90
2.10	References	91-96

Chapter 3: Isolation of chemical constituents from *Sphaeranthus Indicus*

3.01	Introduction	97
3.02	Review of <i>Sphaeranthus Indicus</i>	98-101
3.03	Isolation and structural elucidation of <i>Sphaeranthus indicus</i> flower heads	102-104
3.04	spectral data of isolated compounds	104-107
3.05	Discussion	107-117
3.06	Conclusion	117
3.07	Spectra of Isolated compounds	118-136
3.08	References	137-139

Chapter 4: Isolation of secondary metabolites from *Annona Squamosa*

4.01	Introduction	140-142
4.02	Annonaceous tetrahydrofuranic acetogenins	142-160
4.03	Isolation and structural elucidation of <i>Annona squamosa</i> leaf	160-163
4.04	Biological activities	163-165
4.05	Spectral data	165-168
4.06	discussion	168-181
4.07	Conclusion	182
4.08	Spectra of isolated compounds	183-207
4.09	References	208-216
	Summary	217-225
