Acknowledgements

It is my pleasure to express my sincere thanks and deep sense of gratitude to my supervisor Professor Nizam U. Khan for his patient guidance, continued interest and encouragement and support throughout this work. I am indebted to him for being tolerant of my personal shortcomings and professional limitations, always helping me to remove my doubts and difficulties through many illuminating conversations and all the inspiration, I required to take this work to completion. Infact to work with him was a most pleasurable, enriching and memorable experience of my life and I take this opportunity to pay my sincere thank and best regard to him.

I am thankful to Professor K. S. Siddiqui Chairman Department of Chemistry, Aligarh Muslim University Aligarh, for providing the required infrastructure in the Department of Chemistry Aligarh Muslim University Aligarh to carry out my work without which nothing would have been feasible. He has always been a source of inspiration and great support to me whenever I needed from the department.

I feel obliged to Dr. M. Owais, Interdisciplinary Biotechnology Unit, Aligarh Muslim University Aligarh and Dr. Riaz Ahmad, Department of Zoology, Aligarh Muslim University Aligarh for his valuable suggestions, comments and encouragement throughout this work which have helped me in improving the quality of this work. Thanks are also due to Chairman, Department of Zoology, AMU, Aligarh for providing the necessary facility.

I would like to express my gratitude to Professor Jamal A. Khan and Dr. Affullah Khan, Department of Wildlife Science Aligarh Muslim University Aligarh in helping to collect the plant material. Thanks are also due to Dr. Athar Ali Khan Department of Botany, Aligarh Muslim University Aligarh and Professor S.H. Afaq, Department of Ilmul Advia Ajmal Khan Tibbiya College, Aligarh Muslim University Aligarh for identification the plant material.

I would like to extend my special thanks to Dr. Nadeem Ahmad Khan for his committed and loving support during last year of my Ph.D work.

Thanks are also due to all my respected teachers Department of Chemistry Aligarh Muslim University Aligarh for their moral support and various suggestions during this period.

Thanks are also indebted to the office and seminar staffs of the Department of Chemistry, Aligarh Muslim University, Aligarh, for the cooperation and providing the required official assistance and valuable literature.
I am indebted to all my good friends for the very beginning of this long, long process who always shared my joys and sorrows with equal willingness and made my stay at Aligarh, despite not very happy circumstances, pleasurable thank you for keeping me for quitting.

Financial assistance provided by UGC is gratefully acknowledged.

Finally, I would not be who I am without my parents and indeed I would not be at all without my parents. From an early age my parents encouraged me to reach higher and satisfy my curiosity. Words can not express my indebtedness to my parents who through their love and affection, their wishes and prayers have given me the inspirations to do the work of my choice. I can not thank you enough for the support (emotional and financial) and love that you have given without question over the years.
