CONTENTS

List of publications I
List of figures II
List of tables VI

Chapter 1 General introduction 1
References 47

Chapter 2 Sensitive kinetic spectrophotometric method for the determination of captopril in bulk and dosage forms 58
References 79

Chapter 3 Application of $\pi$-acceptors to the specrophotometric determination of lisinopril in commercial dosage forms 81
References 112

Chapter 4 Determination of labetalol hydrochloride in laboratory made tablets by kinetic spectrophotometry using potassium permanganate as oxidant 114
References 136

Chapter 5 Optimised and validated Initial rate method for the determination of perindopril erbumine in tablets 138
References 158
