Acknowledgements

First and foremost, I would like to thank the Almighty, the all knowing, the most benevolent and merciful, Allah who provided me all the strength and guidance for the timely completion of this thesis.

I, with profound sense of gratitude, wish to express my thanks to my supervisor, Professor Kabir-ud-Din, for his keen interest, undivided attention and eminent guidance, remaining for me a source of encouragement throughout the progress of this work.

I am thankful to the Chairman, Department of Chemistry, for providing various departmental facilities during the period of study.

No words can express my gratitude for my senior colleague, Dr. Sanjeev Kumar. I am greatly indebted to him for his unconditional and timely help. He provided me every possible help in the preparation of this thesis despite being overloaded with his own work.

My thanks are due to all my laboratory colleagues. Dr. Deepa, Mr. Akram, Miss Damyanti, Mr. Ziya and Mr. Khaled for their cooperation and helpful discussions. I am also thankful to Mrs. Manzoora, Mr. Azmal, Mr. Shakeel, Miss Daksha, Miss Naheed and Miss Wasifa, who pointed out mistakes and helped in many other ways.

Financial support for the work provided by IUC-DAEF, Indore, in the form of Project Assistant is thankfully acknowledged.

Finally, I am grateful to my parents, my sisters and brother for their encouragement.
