RESEARCH PAPERS OF THE AUTHOR

The following research papers based on the work presented in this thesis have been published/accepted for publication, presented/accepted for presentation in Conference Symposia.

'Stochastic Linear Transshipment Problem', communicated.

'Stochastic Fractional Transshipment Problem for Maximizing Profitability', accepted for presentation in the ICCS-V conference to be held in Bwarjia University, Malang, Indonesia, August 24-31, 1996)

'Stochastic Fractional Transshipment Problem for Fractional Objective Function', communicated.

'Cutting the Rolls of Varying Sizes and Qualities into the Pieces of Special Sizes', communicated.

'Problem of Cutting the Rolls Under Uncertain Demand', communicated.
