ACKNOWLEDGEMENTS

With limitless humility, I would like to praise and thank "LORD" the Almighty, the Supreme, the Merciful, the Compassionate, who blessed me with all the favourable circumstances to go through this gigantic task, and for bestowing me with such affectionate parents whose constant moral encouragement and independence to choose my goal was a source of inspiration to me to burge ahead and imbibe the forte of impregnability. Their selfless persuasion and sacrifice, heartfelt blessings and firm faith have made this manuscript a feeble recompense to translate their dreams into reality. May Almighty provide me the power to liquidate their debt.

I wish there could be really more befitting way than words for acknowledging the indebtedness and to express my loyal and venerable thanks and divulge my deep sense of heartfelt gratitude to Dr. Amit Ghosh, my mentor for his excellent advice, encouragement, painstaking efforts, scientific acumen and constructive criticism throughout the entire period of my stay here which steered the completion of this study. I owe to him more than I could care to admit.

I preserve everlasting gratitude to Dr. Girish Sahni current Director of IMTECH, during the course of my study. The financial support extended by CSIR is duly acknowledged.

It is my sole prerogative to place on record my indebtedness and everlasting gratitude to Dr. Jagmohan Singh, Dr. Alok Mondal, Dr. Ganeshan, Dr. Dibyendu Sarkar, Dr. G.S. Prasad, Mr. MayilRaj and Mr. Deepak Bhatt for providing me excellent DNA sequencing facility.

I want to place on record my sincerest thanks to Dr. T. Chakraborti, Dr. Raksh Jain, Dr. Pardeep Chakraborti, Dr. Kanak lata Dixit, Dr. Anand Bachawat, Dr. Nandita Bachawat, Dr. Rajamohan, Dr. Saumaya Ray Chaudhary, Mr. J.N. Ahuja and Dr. Balvinder Singh for their valuable guidance and help, kind co-operation and precious advice, whom I am deeply indebted.

I also extend my sincere gratitude towards Dr. G.P.S. Raghava, In-charge, Bioinformatics Centre for his timely suggestions to use various bioinformatics tools in my research work and helpful directions from time to time. I owe my deep sense of gratitude to Thunga Madam, not only because she taught me all the basics of Molecular Biology but also for some of the experimental results described in this thesis, obtained working jointly with her.

Time stops ticking, when I think of acknowledging the nice company and unwavering help extended by my lab mates Gautam, Kislay, Sanker and Chitranshu, who taught me all the basic lab techniques. Special thanks to Vijaya, who always like a younger sister strengthened my resolve to complete this project in time and proved the veracity of facts in various walks of life. My sincere appreciation goes to Mrs. Satya Gupta and her family for providing me homely atmosphere and care during my stay here. Special thanks are due to Mrs. Sharanjeet Kaur and Surinder Singh ji for timely lab assistance and showing ever helping attitude towards me. A special thanks is due to Vibhu for all his care and brotherly love. I thank Mrs. Batra and Raghunath Ji for providing a cordial and pleasant working atmosphere.

With love I would like to pay special thanks to Meghna my roommate for all her love and care and Rupinder didi for ever helping hand. Many cheerful thanks to my seniors Alpana, Jayeeta, Rachna, batchmates Sharan, Sangeeta, Monika, Pratima, Rekha, Deepika, Biju, Laxmipati, Sumit, Gunjan, Jagpreet and Saurav, my friends Alka, Anjali, Suman, Anuradha, Loveena, Puja, Shilpy, Amrita, Sudesh,
Monika, Divya, Neha, Pradipta, Rahul, Rohan, Amit Battacharya, Chetna, Muthu, Mitesh and Arvind who made my stay at IMTECH a pleasant one.

I would like to acknowledge staff and students of IMT especially the ladies group, Mrs. Sharma and Nidhi for extending their kind help whenever required. My special thanks to Library, bioinformatics Center, Instrumentation, Administration, Accounts, store, purchase and mess workers for rendering their cooperation.

I offer my deepest heartfelt thanks and gratitude to my parents-in-law for their love, affection and cooperation, my Lovable Brother-in-law Manoj for his jovial nature and mature suggestions. With affection I think of my adorable Brother Atul for his unconditional love, faith, support, care and wonderful understanding though he is younger to me, he played a role of Big brother. Thank you so much.

With a personal touch of emotions, all the words in this lexicon will be futile and meaningless if I fail to express my heartfelt gratitude to my beloved husband “Rakesh” who has been the constant source of inspiration and encouragement to complete this project. He is the person who persuaded me to enter in the field of Biotechnology; take me out from a small town to this place. His sincere wishes, sacrifices and firm prayers need not to be acknowledged in words, but are to be felt in the deeper layers of my heart.

Acknowledgements are inherently endless and incomplete, and I wish indulgence from the many friendly and helpful people whom I do not name here.

Needless to say, errors and omissions are mine.
