ACKNOWLEDGEMENT

I express my sincere gratitude to my guide, Dr. Hyacinth Highland, Associate Professor, Department of Zoology and Biomedical Technology, School of Sciences, for encouraging me to pursue my Doctoral studies and for her valuable guidance and suggestions throughout my research work.

I sincerely thank Prof. M.V. Rao, Head, Department of Zoology, Gujarat University, School of Sciences, for providing me the necessary facilities, help and support in carrying out this study.

I am really indebted to Dr. R. M. Dwivedi, Emeritus Scientist, CMLRE, COCHIN, for training me in the intricacies of the techniques in this field. His valuable expertise and wise suggestions have contributed immensely to help me in this research work.

I express my profound appreciation to Dr. L.B. George, Associate Professor, Department of Zoology and Biomedical Technology, School of Sciences, for his valuable guidance at every step of the research, which really helped me to understand and appreciate the basics of this research. I appreciate the time, patience and energy that he willingly spared to help me in this study.

I also thankfully acknowledge the support and guidance of Dr. H. U. Solanki, Bio Scientist of Marine Biology Division (MBD), Marine, Geo and Planetary Science Group (MPSG), Space Applications Centre (ISRO), for his valuable guidance with respect to Marine Biology, generous encouragement and co-operation during my period of study.

I am extremely grateful to all the Staff of Department of Zoology and the School of Sciences who have helped me from time to time especially Dr. R. J. Verma and Dr. K. R. Desai.

I take this opportunity to sincerely thank my colleagues, Madhumita Tripathi, Ami Desai and Ratheesh Ramakrishnan at SAC, ISRO, for their essential suggestions and co-operation during the tenure of my research.

I am highly thankful to Indian Space Research Organisation (ISRO) for providing the financial support through the OCEANSAT-II project and permitting me to carry out my research work and extending all the necessary support and use of facilities during my tenure, at Space Applications Centre (SAC), ISRO, Ahmedabad, India.

I owe a great debt of gratitude to my respected and loving family members. The support and encouragement from my family is the greatest strength for me. Here I would like to thank my parents and parents-in-law for their longlasting care and support. Finally, I am greatly indebted to my devoted husband 'Prashant' and our daughter 'Sudhanshi'. They form the backbone and origin of my happiness. Their love and support without any complaint has enabled me to complete this Ph.D. I owe my every achievement to both of them.
