ACKNOWLEDGEMENTS

I take this opportunity to thank and acknowledge the many people I have been associated with/am associated with during my travel from my school days till today. The list is long and unending, forcing me to put in black and white only a few key people.

I am honored to be have been associated with Dr. Girish Sahni for my PhD dissertation, who put me through the lanes of scientific arena, guiding me with care and chidings so that I trip the least in future scientific lane. I am grateful to him for his excellent guidance, valuable advice, critical evaluation of the results and for giving me space and freedom to express my views and ideas. I would like to extend my sincere thanks to him for all the efforts put in to trying to bring the best in me. A meaningful culmination to this small piece of work would not have been possible, but for him, for which I am highly indebted to him. By his sincerity to work and commitment to science, he has shown me the path one would have to take to enjoy a good scientific life. I am ever grateful for that.

I would like to express my heartfelt thanks to Dr. Amit Ghosh, Director, IMTech and Dr. C. M. Gupta, former Director, IMTech for providing me with the opportunity to work in this premiere institute. The financial support extended by CSIR is duly acknowledged.

My stay at IMTech has allowed me the association of friendly, helpful, cheering and very co-operative laboratory seniors, Deepak, Mahavir, Utpal and my immediate juniors, Jayeeta and Jagpreet. It has been a pleasure to work along with them, share fun and receive invaluable help and encouragement. Thanks a ton. I would like to pay special tribute to my laboratory colleagues Sneha, Anita, Rajagopal, Chaiti, Abhay and Nandita for their invaluable suggestions and help. I am especially indebted to Rajagopal and Anita for the collaborative help in development of the various SK derivatives, and Sneha for development of the solid-phase assays used in this treatise. My very special thanks are due to Mrs. Paramjit Kaur, our technical assistant for her ever-cheerful disposition and help during this work. I am very grateful to Jayeeta for helping me with the various stages of the thesis writing, especially the last phase.

My stay at IMTech was special due to my friends K.K, Pandey and Maneesh, who with their unstinted support and constant cheering made all difficult tasks seem easy, all tribulations seem trivial. I am ever indebted to both for their affection. I would also like to extend my sincere thanks to Sowri, Jayeeta and Amalda who for their helpful and cheering ways. My special thanks to Harpreet Kaur, who took out time for helping me with crystallographic data analysis and aiding me with a few crystallographic images.

I would also like to extend my thanks to Abhijitda, Gautam, Kislay, Shankar, Bhupeesh, Radha, Rohini, Jitendra, Subba, Susmit, Ashish, Ashwini, Pratima, Sangeeta, Rekha and Rudra for making my stay a pleasant one. I would like to acknowledge all the staff and students of IMTech for extending their kind cooperation, whenever required. My special thanks to BIC, library and canteen staff for their timely help.

I am deeply indebted to Dr. Mande for his enthusiastic and helpful attitude. I am also thankful to Dr. Parnamanda and Dr. RadhaKishan for their valuable scientific discussion in the structural biology club, Dr. Anand Bachhawat, Dr. Rakesh Vohra and Dr. Tapan Chakraborty for all the help extended. I am grateful to Dr. R.P. Roy, NIT for the kind help extended with CD studies.
Special mention to my senior secondary teacher, Mrs. Nalini Premnath for her trust encouragement in my capability and, which has propelled me all along. I am ever indebted to her.

My extended family of uncles (Hari, Mohan, Ramani and Satty), aunts (Vasanti and Bhavani), and their family have been a solid support and succor during the entire course of my PhD. But for their ever-willing cooperation, sacrifices and cheerful ways it would have been impossible to complete this course work. I am deeply indebted to them. I dedicate my thesis to Bhavani aunty, who with her ever inspiring words, and her never say die attitude, motivated me to follow the path I choose. Tatha and Patti through their constant encouragement have inspired me to reach higher ranks. Words are insufficient to express my gratitude to them.

Finally, I would like to thank my parents for their moral support, love, freedom and unstinted support in whatever I did. My sister Soumya, and brother Jeetu have shared with me the ups and downs of life and never hesitated to help me with their love and support. I am very grateful to them.
