Preface viii

1 Introduction 1
1.1 The background to the New Economic Policies (NEP) 2
1.2 The concept of the black economy 6
1.3 Planning regime and the public sector 6
1.4 The fiscal crisis 8
1.4.1 On deficits 14
1.5 The structural demand problem 15
1.6 Inflation and monetary policy 20
1.7 Open economy themes 21
1.7.1 The monetarist model 22
1.7.2 The two-gap model 23
1.7.3 The three-gap model 24
1.7.4 The demand constrained model 25
1.8 The Indian database 27
1.9 The emerging issues 29
1.10 Introducing the black economy 31
1.10.1 The black economy in India 33
1.11 Methodological aspects 34
1.12 Chapter scheme 38

2 The Fiscal Deficit as an Instrument of Stabilization Policy 41
2.1 Introduction 41
2.2 The Fund stabilization model 43
2.3 An evaluation of the package 47
2.4 The Keynesian approach 50
2.5 Capital mobility and Mundell-Fleming proposition 52
2.6 The fiscal approach to the balance of payment 54
2.7 Reconciliation between the fiscal and the monetary approach 56
2.8 The New view 58
2.9 Fundamental relationship
2.10 The impact of fiscal deficit on trade deficit
2.11 A review of the literature on ‘twin deficit’
   2.11.1 The issue of causation
   2.11.2 The distinction between short run and the long run
   2.11.3 The inter-linkages among the gaps
2.12 A review of the empirical studies
2.13 The empirical results
2.14 Concluding remarks

3 The Monetary Aspects
3.1 Introduction
3.2 Demand for money
   3.2.1 The Classical monetary economics
   3.2.2 The Keynesian money demand function
   3.2.3 Friedman’s money demand function
3.3 The emerging issues and the velocity of circulation
3.4 Monetary transmission mechanism under Keynes and Friedman
3.5 The monetary transmission mechanism
3.6 Post Keynesian theory of money supply
3.7 Endogeneity of money and the monetarist doctrine
3.8 Monetary targeting in India
3.9 Sectoral balance and flow of funds
3.10 Empirical Studies on monetary aspects
3.11 A review of literature on empirical studies on the role of credit
3.12 Empirical results
3.13 Conclusions

4 Black economy – A need for a macroeconomic framework
4.1 Introduction
4.2 Why the black economy needs to be incorporated in a macro-model
4.3 Defining black incomes
   4.3.1 The concept of an economy, economic activity, and transfer incomes
   4.3.2 The concept of black economy and black incomes
   4.3.3 Defining black incomes
   4.3.4 Rent seeking behaviour
   4.3.5 Categorising rent seeking activities
4.4 Bribes and the concept of black incomes
4.5 Defining black incomes: Conclusions
4.6 Indirect tax evasion
4.7 Understanding the nature of black incomes
  4.7.1 Wage income and moonlighting
  4.7.2 Illegal incomes in illegal activities
  4.7.3 Benami (fictitious) dealings
4.8 The extant literature on black economy
  4.8.1 The micro based literature
  4.8.2 The macro literature
  4.8.3 The empirical literature on the black economy
4.9 Micro foundations of Macro – A note on methodology
4.10 Black economy – A macro phenomena
4.11 A critique of the existing macro literature
4.12 State, society and corruption
  4.12.1 The role of state in economic theory
  4.12.2 Bureaucrat’s behaviour
  4.12.3 Policy making and majority rule
  4.12.4 State-in-society approach
  4.12.5 Importance of ethics and public policy
  4.12.6 The concept of a disembedded economy
  4.12.7 Social capital
  4.12.8 Historical specificity and the market economy
4.13 The three-gap model with the black economy
4.14 The comparative static – a substitute for dynamics
4.15 A suggested framework
4.16 Money in Friedman’s framework
4.17 Pitfalls of formalism with the black economy
4.18 Conclusions

5 The Real and the Monetary Sector in presence of
  the black economy
5.1 Introduction
5.2 The consumption function
5.3 Black investment
5.4 Determination of profit and concepts of public sector deficit
5.5 Determinants of income and profit in a closed economy
5.6 The dynamic growth path in presence of tax evasion
5.7 The multiplier, distribution of income and the black economy
5.8 The dynamics of income and the growing fiscal deficit
5.9 Stagnation – A growth theoretic explanation
5.10 The monetary sector and the black investment
5.11 Conclusions

6 The External Sector and the black economy
6.1 Introduction
6.2 A survey of literature
   6.2.1 The growth of black market for foreign exchange and
       the flight of capital
   6.2.2 The illegal market for foreign exchange
   6.2.3 The hawala market in India
   6.2.4 Flight of capital
6.3 The economic effects of flight of capital
   6.3.1 Estimates of capital flight
   6.3.2 Capital flight and smuggling of gold
6.4 Black economy and the external sector
6.5 A reformulation of the external account balance
   6.5.1 The constituents of black export
   6.5.2 The constituents of black import
6.6 Under and over invoicing of export and import
   6.6.1 Actual current account balance and trade balance
   6.6.2 Over and under invoicing of exports
   6.6.3 Over and under invoicing of imports
   6.6.4 Impact on output and profit
   6.6.5 Smuggling
   6.6.6 Remittances
   6.6.7 Transfer pricing
6.7 Implications of black transactions on money supply
6.8 Black channels of investment and the external sector
   6.8.1 Investment in gold and gems
   6.8.2 Capital flight abroad
   6.8.3 Investment in illegal activities
6.9 Capitalist’s consumption out of black profit
6.10 Conclusions
