ACKNOWLEDGEMENTS

This thesis arose in part out of years of research that has been done since I came to School of Chemical Sciences, Swami Anantha Theertha Campus, Kannur University. By that time, I have worked with a great number of people whose contribution in assorted ways to the research and the making of the thesis deserved special mention. It is a pleasure to convey my gratitude to them all in my humble acknowledgment. Words are inadequate express the sincerest gratitude to my supervising teacher Dr. K.R. Haridas, Associate Professor and Head, School of Chemical Sciences, Swami AnanthaTheertha Campus, Kannur University for his inspiring guidance, stimulating discussions, unstinted support, constant encouragement, and above all, readiness to help through out the tenure of my course. I gratefully acknowledge to Dr.T.D. Radhakrishnan Nair, former Visiting Professor and Dr.S. Sudheesh, Assistant Professor for their fruitful suggestions throughout my research tenure. I would also like to take this opportunity to express my gratitude and thanks to all other teaching and non teaching staff of School of Chemical Sciences, Swami Anantha Theertha Campus, and Kannur University for their help in respect of my research work.

I express my sincere thanks to Dr. K.P. Vijayaumar and Rajesh Menon, Cochin University of Science & Technology, Cochin for their help and suggestions during photovoltaic measurements. I thank Dr. Timy P. Jose and Dr. A. Sreekanth for their help in providing cyclic voltametry studies. I am fortunate to receive help from some research institute to carry out chemical analysis of my work, sophisticated test and instrumental centre CUSAT, IIT, Madras, IIST, Thiruvananthapuram and Textiles Committee, Govt. of India, Kannur, my indebtedness to scientists and technicians of these institutes is inexplicable. Many thanks go in particular to my teachers especially
Professor K.T. Kunhikrishnan Nambiar (late), A.V. Manohar and K.T. Radhamani of Payyanur College for their constant interest in my work, useful discussion and voluntary help at the hour of need. I am indebted to Mrs. Sheeba E., Mrs. Siji Mathew Mrs. N. Divia, Mrs. V. Sheeba, Mrs. K. N. Lisha, Miss. Syana and Mrs T. Dhanya for their help extended during my research period. Where would I be without my family? My parents deserve special mention for their inseparable support and prayers. My Father, K.V. Kunhikannan in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was a child. My Mother, Santha P.V., is the one who sincerely raised me with her caring and gently love. I express my immense gratitude to my parents and my sister Sindhu for always being their support to me emotionally and spiritually. I thank all my family members and friends for their constant encouragement. Words fail me to express my appreciation to my husband Pratheep. T., whose dedication, love and persistent confidence in me, has taken the load off my shoulder. I owe him for being unselfishly let his intelligence, passions, and ambitions collide with mine. Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one. Last, but not the least, I bow before Almighty with a heart over flowing with thankfulness for sailing me safety trough the rough seas.

Sandhya P. V.
