ACKNOWLEDGEMENT

With immense pleasure, I record my heartfelt gratitude to Dr. S. Sugunan for his constant support, encouragement and valuable guidance and timely suggestions throughout the period of my research work. I am obliged to him for leading me to the world of physical chemistry and research.

I am grateful to Dr. K. K. Mohammed Yusuff, former Head, Department of Applied Chemistry, for providing the opportunity to carry out my research in this department. The thermal analysis data provided by Dr. P. Indraneethan, Head, Department of Chemistry, University of Kerala, is gratefully acknowledged. I take this opportunity to thank all teaching and non-teaching staff, Department of Applied Chemistry, for their help in various occasions.

Special thanks to all my lab-mates for their timely help and co-operation throughout my research work. The vibrant and friendly atmosphere created by them made the life in the lab a memorable experience. I hereby extend my sincere thanks to my lab-mates Raman Kutty sir, Renu chechi, Raha, Suja, Nisha, Sreeja, Manju, Smita, Fincy, Suna, Bejju, Sanjay, Radhika, Shaji, Binitha and Maya. I am thankful to Anas, Suja, Saji and Sreeja for their support and co-operation on various occasions. I wish to express my thanks to Dr. T. M. Jyothi and Dr. K. Sreekumar for their valuable suggestions and help during various stages of my research. I am indebted to Sibu. C. P. for supplying thermogravimetric and IR data.

My gratefulness to the assistance provided by Mr. Gopi Menon, Mr. Murali, Mr. Joshi and other technical staff of Department of USIC and Mr. Suresh, Service Engineer, Chemito during various technical difficulties. Without their help it would have been really difficult to carry out the research work.

I owe a lot to my parents, brother and sister- in- law for the moral support provided by them during my research life. The financial support offered by Cochin University of Science and Technology and CSIR, New Delhi is also acknowledged with gratitude.

Deepa C.S.
