ACKNOWLEDGEMENT

Remembering the kind grace of God, it is my immense pleasure to acknowledge my sincere regards and deep sense of gratitude to my supervisor Dr. Vibhuti Rai, Retd. Professor, SoS in Life Science, Pt. Ravishankar Shukla University, Raipur (C.G.) for his auspicious guidance, inspiring suggestion, constant encouragement, incessant discussion, unrelenting help, everlasting moral support, kindness and careful mentorship. I am really glad that I have come to know him in my life. I am also thankful to him for providing all necessary facilities to conduct this work.

I am highly grateful and deeply obliged to Dr. Anjana Sharma, Professor, Dept. of Bioscience, Rani Durgawati University, Jabalpur (M.P.) for her most valuable guidance, keen interest and suggestions throughout the experiment. Her sound advice refined the crude data that lead to the meaningful conclusion. I am deeply thankful for her generous support throughout the work.

I express my deep sense of gratitude to Dr. A.K. Pati, Professor and Head, SoS in Life Sciences, Pt. Ravishankar Shukla University, Raipur (C.G.) for his inspiration and the constant help by providing all the required amenities throughout the research.

I solicit my sincere thanks to Dr. A. K. Gupta, Professor, SoS in Life Sciences, Pt. Ravishankar Shukla University, Raipur (C.G.) for his constant advice and suggestions during my work. I also take pleasure to convey my thanks and sense of appreciation to all the faculty members and staff of SoS in Life Sciences for their kind help and support.

One name I can never miss to spell out, whose constant encouragement made me buoyant during the entire research is Dr. Yogita Rajput, SoS in Life Sciences, Pt. Ravishankar Shukla University, Raipur (C.G.). I wish to give my profound thanks to all my past and present research scholars and colleagues especially Dr. Ayasha Fatima Rizvi, Dr. Kalpana Patle, Preeti Singh Parihar, Poonam Bisen, Swati Chandrakar, Dr. Priti lata Minz, Razia Sultana, Babita Pandey, Saba Taj, junior Lab members and all my friends for their affection and encouraging attitude.

I acknowledge the convivial help received from Ms. Varsha Shukla, Mr. Chandan, Ms. Shradha, and other research scholars of bacteriology lab, Department of Bioscience, Rani Durgawati University, Jabalpur (M.P.) for giving their precious time and valuable cooperation.
I express my thanks to Pt. Sundarlal Sharma library, Raipur for their amenable assistance. I acknowledge gratefully Ravishankar Shukla University, Raipur and UGC-BSR, New Delhi for awarding the fellowship to pursue this work financially uninterrupted.

Personal debts are most difficult to pay out. I owe all my indebtedness to family members, nana ji, nani ji, bade mama ji, bade mami ji, chote mama ji, mausi ji, all my loving sisters poonam, preeti, priyanka, pooja, my brothers Rakesh bhaiya, Roshan bhaiya, Ramesh bhaiya, Sanjay bhaiya, Jitendra, Vinay, my inlaws and all my near and dear ones especially Santosh thakur for technically equipping me during the course of thesis.

I want to express my wordless thanks to my brother cum friend Mr. Sunil Thakur for his motivation, patiently affectionate care and constructive criticism. From starting to the conclusion of this assignment he always showed belief on my caliber making me confident to hold this opportunity.

Last but not the least; I would like to express my silky thanks to my husband, Mr. Ajay singh Thakur, for his keen support towards completion of my thesis.

I dedicate this thesis to my Papa, Maa and Mr. Sunil Thakur without them I would have not been here.
