Demographic Profile and Family Health Status of Chhattisgarh: An Analytical Study

(Qualitative Survey Schedule)

Good morning!!/ Namaste!!

My name is Shraddha. I am a Ph.D. scholar in the School of Studies in Economics, Pt. Ravishankar Shukla University, Raipur. For the sake of research purpose only, I am carrying out a qualitative study survey in your village. The survey seeks information on demographic profile and family health status of the people. The information given by you will be kept confidential. Your participation is completely voluntary. If you do not like to answer any question or you want to terminate interview any time, you can do so. The information you provide will greatly assist in undertaking welfare programs in your area. The interview will take about 20-30 minutes. I do hope you will consent and cooperate.

Consent given: 1-Yes / 2-No

If yes, proceed ahead after verifying the eligibility of the household.
If no, document the reason, and terminate the study in the household, and go to the next household.
A. Household Schedule

1. District
2. Block
3. Village
4. Serial No. of household
5. Name of the household head Sex: Male/Female
6. Name of the currently married 15-49 year woman respondent
7. Personal details of HH members

Note: Use extra page in case of more than 10 members in the Household.

8. Main religion of HH
1-Hindu/ 2-Muslim/ 3-Christian/ 4-Sikh/ 5-No religion/ 6-Other (specify)

9. Caste/ tribe of HH 1-General / 2-SC / 3-ST / 4-OBC

10. Type of family 1-Nuclear/ 2-Joint
11. **Type of house** (Observe and note)
   1-Pucca/ 2-Semi-pucca/ 3-Kuchcha

12. **Main source of drinking water**
   1. Improved source (Piped water/ tube well/ borehole/ other improved source)
   2. Non-improved source: Dug well etc.

13. **Toilet facility**
   1. Improved: Flush/ Pour flush to piped sewer system/ septic tanks/pit latrine etc.
   2. Non-improved (Open space/ field/ open pit/ pour flush not to sewer system, septic tank or pit)

**B. Opinions/perceptions/knowledge/attitude**

**I. Demographic variables**

   1.1 In your opinion ideal number of children a couple should have
   1.2 Ideal no. of sons a couple should have
   1.3 Ideal no. of daughters a couple should have
   1.4 Are you in favour of more sons than daughters? Yes/ No
   1.5 Are you in favour of more daughters than sons? Yes/ No
   1.6 Do you think one should have at least one son? Yes/ No
   1.7 Do you think one should have at least one daughter? Yes/ No
   1.8 In your opinion appropriate age of a girl to get married
   1.9 In your opinion appropriate age of a boy to get married
   1.10 In your opinion, interval/ time gap in months between two births.
II. Family health variables

2.1 Do you know every child birth should be registered? Yes/ No
2.2 Do you think every child should be fully vaccinated? Yes/ No
2.3 Do you know about contraceptive methods to delay or prevent pregnancy? Yes/ No
2.4 Did you ever face any unmet need of family planning methods? Yes/ No
2.5 Did you ever have unwanted pregnancy? Yes/ No
2.6 Do you think Ante Natal Care is must during pregnancy? Yes/ No
2.7 Are you in favour of institutional delivery/safe delivery? Yes/ No
2.8 Have you ever heard of HIV/AIDS? Yes/ No
2.9 Source of health care facility in case of sickness:
   1. Public medical sector (government/municipal hospital, government dispensary, Urban Family Welfare Center, Community Health Center, Primary Health Center, Sub Center etc.)
   2. Private medical sector (private hospitals, private doctor/clinic, vaidya, hakim, homeopath etc.)
   3. Other sources (shop, home treatment etc.)
2.10 Suggestions, if any to improve the demographic and family health scenario.

Any remark by the investigator:

Name of the investigator Date of Interview
