ACKNOWLEDGEMENTS

At the outset, I take this opportunity to express my heartiest gratitude to my learned supervisor Dr. (Smt.) Radha Pandey, Principal, Govt. CLC Arts & Science College, Patan, Durg (C. G.) for her invaluable guidance during the entire period of my research work. At the same time, I am heartily indebted to my co-supervisor Dr. R. K. Brahme, Associate Professor, School of Studies in Economics, Pt. Ravishankar Shukla University, Raipur (C. G.) to inspire and guide me to undertake this rare and rather complex kind of research work of Chhattisgarh State level having policy relevance bearings in the ever challenging field of population and health.

I am extremely grateful to Dr. R. Prasad, Professor and Head, School of Studies in Economics, Pt. Ravishankar Shukla University, Raipur for his immensely fruitful suggestions during the entire course of my research endeavour which not only made the research work completion possible but also enabled me to bring forth some quality research outcomes useful in exploring the population and health dynamics of the Chhattisgarh State.

I express my sincerely thanks to Dr. A. K. Pandey, Professor, School of Studies in Economics, Pt. Ravishankar Shukla University, Raipur to give his valuable inputs and suggestions particularly in conceptualization and analysis of the demographic profile part of the proposed study. I offer my special thanks to Prof. J. L. Bhardwaj, Ex-Head, School of Studies in Economics, Pt. Ravishankar Shukla University, Raipur for always being supportive in providing me all research facilities available at the center.

The State Health Resource Center (SHRC), Raipur which is an additional technical capacity to the Department of Health and Family Welfare, Govt. of Chhattisgarh, provided me a lot of institutional and technical support. I wish to express my gratitude with appreciation to its Ex-Director Dr. A. K. Anthony, and the Ex-Programme Coordinator Dr.
Kamalesh Jain for extending their technical inputs and suggestions in the conceptualization and analysis of the family health status part of the proposed study.

I am also thankful to Dr. B. L. Sonekar, Assistant Professor, School of Studies in Economics, Pt. Ravishankar Shukla University, Raipur for his generous help and continuous encouragement that led to the timely completion of the research study.

The National Sample Survey Organization (NSSO), Raipur officials also deserve special thanks for being very kind and helpful in providing Chhattisgarh State level data for the study. My thanks also go to host of respondents who patiently spared their valuable time in answering questions of the study schedule during field survey without any pecuniary benefits.

I shall fail in my duties if I do not place on record with due appreciation and thanks for priceless contribution added by my parents and my dearest younger sister Namrata who always stood with me with their full support in this endeavour.

Last but not the least, all the official staff of the SoS in Economics, Pt. Ravishankar Shukla University, Raipur deserve special mention and thanks for their very sincere official support and cooperation during my research study period at the center.
