ACKNOWLEDGEMENTS

It’s been an honor to acknowledge the people who cooperated, helped and supported me during my research work. I am extremely grateful to (Late) Dr. O.P. Bhalla, Founder and President of Manav Rachna Educational Institutions for being my source of inspiration. This feat was possible only because of the motivation and unconditional support provided by (Late) Dr. O.P. Bhalla, Dr. Prashant Bhalla, Chancellor, MRIU and Dr. Amit Bhalla, Vice President, MRIU. Thanks to Prof. Victor Gambhir, Pro Vice Chancellor, MRIU for questioning me about my ideas, helping me think rationally and even for hearing my problems.

I would like to express my sincere gratitude to my Supervisor, Dr. Vinod K. Mahna and Joint Supervisor, Dr. Ruchi Malhotra for the continuous support of my PhD study and research, for their patience, motivation, enthusiasm, and immense knowledge. Their guidance helped me in all the time of research and writing of this thesis. I could not have imagined having better advisors and mentors for my PhD study. The persons with an amicable and positive disposition have always made themselves available to clarify my doubts despite their busy schedules and I consider it as a great opportunity to do my doctoral programme under their guidance and to learn from their research expertise. Thank you Sir and Mam, for all your help and support.

I must express my gratitude to Dr. M.K. Soni, Executive Director & Dean, FET, MRIU and Prof. Naresh Grover, Director, FET, MRIU for the congenial environment provided by them.

I would also like to thank Dr. Deepak Kumar for helping me with the statistics. Special thanks goes to Prof. Victor Gambhir, Dr. Sandeep Grover, Dr. Dharmendra Kumar, Noor Fatima, Vinod Goel, Dr. Sanjeev Goyal and Kuldeep Narwat for helping me in the data collection for the research work. Those people, such as the student and faculty respondents, who provided much needed information by filling up the questionnaire for the research work, also deserve thanks for helping me keep things in perspective.

I would like to thank my family, especially my mother and father for always believing in me, for their continuous love and support in my decisions. I was continually amazed by the patience of my mother and father who experienced all the ups and downs of my research.
